

LAB 4; HUNT 2 AS SLAYERS

REED WARS ON MCADOO; OPENS HIS CAMPAIGN

Law Work for Doherty and Morse.

St. Louis, Mo., Feb. 25.—[By the Associated Press.]—United States Senator James A. Reed, formally opening his campaign for the Democratic Presidential nomination tonight, declared it his opinion "not one-tenth of an inch" that the "McAdoo" campaign is a "rock ribbed" one, in referring to the disclosures.

He charged William Gibbs McAdoo, secretary of the treasury and opponent for the nomination, "as a man who has received \$1,000,000 in 'legal' fees from E. L. Doherty, oil magnate, and Charles W. Morse, interests, and whose picture concerns, although he is not appearing in a single lawsuit."

Reed then reiterated his platform of "oppressive tariffs" and for "reduction of taxes, adjusted compensation of soldiers, alleviation of farmers' conditions, elimination of 'useless' bureaus and of the government, repeal of unjust and oppressive laws, and ending of the 'concentrated power at the capital'."

"I am asking the endorsement of the Democracy of Missouri and of the nation for the Presidential nomination," Mr. Reed said.

"Mr. McAdoo publicly announced that he did not intend to enter the list of candidates, but, for reasons which are doubtless satisfactory to himself, he has changed his mind, and is now running for the Presidency."

"These conditions force me to make personal references which I would have omitted had I been extended by McAdoo the same courtesies he has extended to others, and that all others have extended to me."

Having been invited into the arena, Reed gave his reasons why the "McAdoo" campaign should not be the endorsement of the Missouri Democracy.

"Mr. Doherty came to Washington, he was in search of influence, and he was willing to expend large sums of money. Although there were thousands of lawyers of distinction and ability in the United States, Doherty took into his employ five or six ex-cabinet officers. I do not say that these lawyers were corrupt, I do say that with the possible one exception, Garrison, they were not employed for their legal ability."

"Doherty swore that he employed McAdoo shortly after he left the cabinet, which was on Dec. 16, 1918."

"Doherty paid \$100,000 for his services at Washington. Mr. McAdoo was paid \$100,000. He was removed from that point of departure when the Democratic administration was succeeded by the Republican administration."

"This is Doherty's own testimony, it remains uncontradicted."

"What a spectacle is presented! The clever and cunning Doherty enters the arena to purchase influence, and is apparently able to find cabinet and ex-cabinet officers who protest they took his money without a quail of conscience and in entire ignorance of the fact that Doherty was buying influence, and he might purchase a pig in the market."

"But Doherty was not the only man who bought influence."

Morse Retained Him.

"There was Morse, who hired lawyers and paid them in commissions on oil contracts with foreign governments."

"Morse will be remembered as the man who wrecked a string of oil companies. He got into the penitentiary and he got out by fraud."

"Amazingly enough, the same lawyer who defended President Taft that charged a complex indicted a speedy trial by Bright's complex, now sits as the attorney general of the United States."

"After his release from the penitentiary, Morse proclaimed himself a lawyer and organized a concern to build ships. For his transactions with the government he was indicted. On Morse's trial, Mr. McAdoo appeared and testified for the defense."

Morse Employed McAdoo.

"About thirty days after Mr. McAdoo left the government employ he engaged the employment of Morse's organization. It should be noted that McAdoo's partner, Cotton, had been secretary of the Emergency Fleet Corporation and therefore for the shipping board."

"After entering Morse's employ, Mr. McAdoo applied to John Barton Payne, chairman of the ship-

DUAL MURDER CLEW LEADS TO MAN IN OHIO

Missing Youth Here Sought in Roundup.

Solution was in sight last night in two of the three cross angles of the Maybelle Eickel-John Duffy murders last Friday. Assistant State's Attorney Harold Levy was momentarily expecting word from Columbus, O., of the arrest of Irving Zolli, formerly the Eickel girl's consort. The Hortons, Jack and his wife, and the Curtises, Freddie and his wife, had been arrested in New Orleans, La., and the only suspect not located was William Engleke, who has not been at his home, 1949 Belle Plaine avenue, since Wednesday.

Prosecutor Levy received information that the suspect previously known as Zolli was Irving Zolli and that he could be located on a few hours' notice by the Columbus police. He wired at once to have Zolli arrested.

Hunted Wrong Man.

The man wanted was discovered by Columbus authorities, who had been vainly seeking the record of Zolli. They found Zolli was arrested in Zanesville, O., with a woman now presumed certain to have been Maybelle Eickel, that he was brought to Columbus and convicted of defrauding an innkeeper and sentenced to six months imprisonment. The message to Mr. Levy came.

Zolli, known here to be sweet on Duffy woman, seen in Columbus on Wednesday, Feb. 22. Persons here who know him express belief he is innocent of murder.

This established him as the man blamed by Miss Ruby Downing of Louisville's underworld for having lured Miss Eickel into an immoral life, as the man who threatened to kill her if she didn't remain true to him while he was in jail. That she didn't is evident from her assumption of the name of Mrs. Duffy.

Zolli Much Wanted.

The fact that Zolli was seen in Columbus on Feb. 22 would not shake him, as the murders were committed here on Feb. 22. The evidence against him so far is only circumstantial and from the one witness, the Downing girl who knew Maybelle most intimately in the six months of Zolli's incarceration. His arrest may eliminate him as a factor in the case, but Levy wants him either way.

In an effort to apprehend Engleke, who drew suspicion to himself by his actions after the slayings were accomplished, Assistant State's Attorney William W. Smith last night brought in the other members of his family for questioning. They were Mr. and Mrs. George Engleke, the father and mother; George, aged 30, and Alfred, aged 13, brothers.

Miss Jean Mason, a divorcee, had previously told how Engleke appeared and what he said to her regarding the Duffy case after they were killed. Mrs. Engleke and George Jr. confirmed this, as well as confirming a statement made by "To" Reynolds, a dry cleaner and former park policeman.

Away from Home.

"Will he stay home, since Wednesday night," the mother said. "I saw him for a few minutes Friday."

He was reading the newspaper accounts of the Duffy murder. He said it was a big mess and he was in danger.

George Engleke said he knew Horton and Duffy well; he had known Horton a year and Duffy since last summer. These two and his brother were running booze, the boy said. Duffy was always bragging about "knocking off" a copper in Philadelphia, he told, and the three always had plenty of money.

Will had an apartment at 430 Galt avenue last summer, his brother said, because it was near the lake and he could go bathing frequently. Will was supposed to be married to the girl who lived with him, whose name was Dora. George said, but he knew they were not married. Dora was a sister of Jean Mason, he stated.

Duffy and Horton spent much time in the apartment, according to the boy, and with Will they transacted their booze business from there. The boy had no knowledge of where Will is now hiding, he convinced Mr. Levy, and with his younger brother and parents was released.

To New Orleans Today.

The four arrests in New Orleans were regarded as the first entry of the legal wedge into the criminal world of secrecy around the murders. Last night Lieut. Edward Baynes and Sergt. Frank McDonald swore out warrants (Continued on page 5, column 2.)

HORTON, GRABBED IN NEW ORLEANS, HAS ALIBI READY

New Orleans, La., Feb. 25.—[Special.]—Admitting with a touch of pride they have more than \$5,000 in currency cleaned up in bootlegging activities in the last few weeks, Orlando (Jack) Horton and Morris "Freddie" Curtis tonight offered to pay their own transportation and that of their wives back to Chicago to prove to the world they never bumped off 'Jack' and Maybelle Duffy.

Milling about with the other prisoners in the bullpen of the parish prison, the quartet appeared to be puffed over only one thing, and that is that the police have interrupted their Mardi Gras party and their visits to the race track at the Fair Grounds.

Horton as Spokesman.

Horton, who assumed the role of spokesman for the four after their arrest this morning in an Esplanade avenue apartment, gave out what he termed a "rockribbed alibi" and then refused to talk further. Both he and Curtis freely admitted, somewhat boastfully, their bootlegging operations and other transgressions of the law, but emphatically protested their innocence of knowledge of the deaths of the Duffys.

"Why, it was the most natural thing in the world that we should let the Duffys have our Cammen avenue apartment while we come down here," Horton said. "Wasn't Jack and me in the booze game together? He'd been my partner ever since I quit railroad work last year and when he went down to Louisville and married Maybelle Eickel, we decided we'd let 'em have the place while we come down here. Only it wasn't on Valentine's day they got hooked up like the papers say, but on Feb. 4."

Curtis said he and his wife had joined the Hortons in the party because "we'd heard so much about the Mardi Gras." The four, according to Horton's alibi, remained in Indianapolis until Tuesday, Feb. 19. They drove from there to Cairo where Horton shipped his Cadillac car to New Orleans by freight. They caught a train for New Orleans at 8 o'clock Wednesday evening, Horton said, and arrived here at 11 o'clock on the morning of Friday, Feb. 22, the day on which the two bodies were discovered in Chicago.

"I wasn't trying to run away from any one," Horton said. "We never knew nothing about the Duffys being bumped off till we read about it in the papers here. Why, I was talking to Detective Rubenstein in the Claypool hotel in Indianapolis the night we left there and he didn't say anything to me, out. I. Some other bootlegger must have got Duffy."

Hard on Their Cars.

Curtis and the two women nodded assent at Horton's story. Curtis said a job had been mostly to keep in repair the cars that Horton and Duffy used in the rum game.

"Booze running is hard on cars," he said. "We kept most of 'em in a garage at 5457-59 Broadway."

The police searched six suit cases found in the Esplanade avenue flat, but failed to find anything they considered of value as evidence in the Duffy murder. The quartet would have had ample time, however, to dispose of anything incriminating. The baggage, notes, written on city law department stationery.

"I'll meet you in my office, room 511, city hall, as soon as after 12 as you can get here."

But McAndrew Is Canny.

"I won't go near the place," Mr. McAndrew is reported to have told the special messenger who delivered the note. "Who is Lewy?" Neither the messenger nor school board attaches could identify "Lewy," and the note was dispatched to Corporation Counsel P. X. Busch for investigation and explanation.

For two weeks "Who is Lewy?" has been the question which two investigators of the law department, Ed Lowey and Jacob Levy, have attempted to answer. Both, because of the similarity of their names to that of the note, were questioned by Mr. Busch.

"Quick, Watson, the Needle."

Yesterday investigator Lowey solved the riddle and the note was returned to Mr. McAndrew by Mr. Busch with the following explanation:

"I had considerable trouble in following this mystery. I think I have it now. Between 11 a. m. and 12 o'clock on Saturday, Feb. 16, Boy Scouts took charge of various department offices in the city hall."

A young scout by the name of Robert Lewy became corporation counsel for this hour and undoubtedly figured out that in this brief authority he would strike as high as he could in the board of education."

NEW BONUS BILL IS ENDOWMENT INSURANCE PLAN

Washington, D. C., Feb. 25.—[Special.]—A modified soldiers' bonus bill was introduced in the house today by Representative Fish (Rep., N. Y.).

The bill provides for twenty-year endowment insurance for all veterans of the world war based on length of service. The policies start at \$400 for over sixty days' service and increase at the rate of \$400 for each six months' service up to a total of \$1,400 for twenty months or more.

Provision also is made to pay insurance to the beneficiaries of veteran who died before Jan. 1, 1925, when the act will go into effect.

The total cost of the twenty-year endowment insurance would be \$2,288,549,991, in the event that all veterans applied. Mr. Fish estimated that at least 10 per cent will not apply for various reasons, which would reduce the total cost to \$1,934,446,921. The grand total cost would be \$2,023,516,996, or an average of \$104,475,545 for twenty years.

SCOUT HAS LAUGH ON MCANDREW

Hazing of New Chief of Schools Solved.

Times, unintentionally, to arrive in the midst of a hot fire of sideburns criticism of his selection and school board affairs generally, a cryptic note ordering him to the city hall within an hour nearly caused William McAndrew, new superintendent of schools, to resign. It was revealed yesterday.

"To the superintendent of schools," read the note, written on city law department stationery.

"I'll meet you in my office, room 511, city hall, as soon as after 12 as you can get here."

But McAndrew Is Canny.

"I won't go near the place," Mr. McAndrew is reported to have told the special messenger who delivered the note. "Who is Lewy?" Neither the messenger nor school board attaches could identify "Lewy," and the note was dispatched to Corporation Counsel P. X. Busch for investigation and explanation.

For two weeks "Who is Lewy?" has been the question which two investigators of the law department, Ed Lowey and Jacob Levy, have attempted to answer. Both, because of the similarity of their names to that of the note, were questioned by Mr. Busch.

"Quick, Watson, the Needle."

Yesterday investigator Lowey solved the riddle and the note was returned to Mr. McAndrew by Mr. Busch with the following explanation:

A young scout by the name of Robert Lewy became corporation counsel for this hour and undoubtedly figured out that in this brief authority he would strike as high as he could in the board of education."

MEET HERE MAY END BUILDING TRADES MIXUP

Definite settlement of who's who as the legal officeholders of the Chicago Building Trades' council will be made here on March 17 at a general conference of international building trades representatives. John Donlin, president of the building trades department of the American Federation of Labor, announced last night in New York City.

At present Chicago has two trades councils—one organized with Landis award trades and the other composed of trades that repudiated the former judge's findings. Five representatives of each trade group will present their side of the controversy at the St. Patrick's day conference, and then efforts will be made to arrange an amicable settlement. According to Donlin, the national trades department does not recognize either council as the Chicago situation now stands. Efforts to arrange a truce between the two factions of trades failed at the Cincinnati and Portland conventions of the American Federation of Labor.

DEALS IN OIL STOCKS BARED BY DAUGHERTY

Speculated Before, After Taking Job.

BY ARTHUR SEARS HENNING.

(Pictures on back page.)

Washington, D. C., Feb. 25.—[Special.]—Attorney General Daugherty formally admitted tonight in an open letter to Senator Willis (Rep., O.) that he had purchased Sinclair oil stock both before and after entering the Harding cabinet; but asserted that he had sold it eventually at a loss.

The date of his final sale of the stock, the attorney general said, was last fall. That was while the senate committee was getting under way its investigation of the leasing of Teapot Dome to Sinclair and the California navy oil reserves to Doherty.

In his letter to Mr. Willis in connection with the Wheeler resolution to investigate his conduct of the department of justice Mr. Daugherty further more denied that he ever rendered an opinion, even informally, on the legality of the oil leases, and asserted that he never was asked for opinion by Secretary Fall or any other official.

Attorney General Sean President.

After he had made public his letter to Senator Willis, the attorney general was summoned to the White House early this evening by President Coolidge. He talked with the President nearly an hour. Upon leaving the White House, Mr. Daugherty said:

"I was summoned by the President to a matter in the department of justice in no way connected with the oil lease controversy. Subjects concerned in the investigation came up incidentally, however, in my talk with the President."

The attorney general was very cheerful and it was apparent that nothing had occurred in the conference to depress him.

Is Not Willing to Resign.

In spite of all details and in the face of Mr. Daugherty's cheerfulness today, the rumor continues to circulate that he will resign after the cabinet meeting tomorrow.

Reports were current tonight that the President had "urged" members of the cabinet all to be present at tomorrow's meeting, as the Daugherty situation will be discussed.

Several cabinet members denied this report. They declared they had no idea that the matter would even be mentioned in the cabinet. It had not been before and they did not believe it was a matter for cabinet discussion.

"It is the President himself, they said, who is responsible for his cabinet officers, and it would not be fair to have the issue of the oil leases, or any of them, made a matter of general cabinet consideration."

A PANORAMA DONE IN OILS

Among the other important developments of the day were the following:

1. C. C. Bascom, secretary to the President, admitted he dined frequently with former Secretary Fall and Edward R. McLean while he was visiting in Palm Beach, Fla., during the early stages of the oil investigation and said he had urged Fall to make a clean breast of the \$100,000 transaction.

2. Testimony by officials of Washington banks, on which McLean asserted he had drawn checks aggregating \$100,000 payable to Fall and covering his alleged loan to Fall, showed that at this time McLean did not have a balance in any bank that would warrant drawing a check or checks for so large a sum, and that no arrangements had been made with the banks to take care of an overdraft.

Drastic Quis for McLean.

3. Announcement was made by Senator Walsh (Dem., Mont.) that McLean would be called to the witness stand on Wednesday or Thursday and subjected to a thorough examination concerning his part in the scandal.

4. A subpoena went out for G. D. Wahlberg, former confidential secretary to Harry F. Sinclair, to return to the witness stand to identify the "Mr. Hayes" who, he said, received from Sinclair a loan of Liberty bonds which aroused his suspicions.

5. Milton R. Allen, president of the Riggs National bank, testified he would be delighted to have the committee's experts go over the accounts of his bank, if being the one which had been mentioned as the depository of a mysterious fund of "oil money."

6. Dr. H. Foster Bain, director of the bureau of mines, testified that Fall had told him Attorney General Daugherty had approved the leasing transaction generally and informally, but that it was not considered necessary to get Mr. Daugherty's opinion in writing.

7. Gen. Lejeune, marine corps com-

WOMAN JUDGE ASKS FOR WAR AGAINST WARS

Ohioan Wants Teachers
to Fight for Peace.

(Picture on back page.)

Many men and women among the thousands assembled in the Auditorium theater last night thrilled to the appeal of Florence Allen, justice of the Supreme court of Ohio, who advocated a declaration of war on war.

Then the same thousands, sitting at the feet of Chicago's first woman judge, elected superintendent of schools, chuckled as William McAndrew read them a lively lesson in good cheer.

The audience was composed of delegates to the sixty-second annual convention of the National Education association, which yesterday opened a four days' convention here.

Her Place to Outlaw War.

Justice Allen appealed for treaties to outlaw war just as murder and other crimes have been outlawed by statute. War, according to her, "must be destroyed if the white race is to maintain its dominance."

Justice Allen made it clear she was neither opposing nor advocating the league of nations or world court. She held that neither is essential to a war against war.

"Any one who answers a newspaper, a woman, or an echo makes a grave mistake," Mr. McAndrew quoted, attributing that to "Butler"—whom he did not identify.

Part of the program was the reading of two memorial tributes. One was to Warren G. Harding, the other to Woodrow Wilson. Then, as the audience sang, a male quartet sang "Lead, Kind Light."

More Money, Better Schools.

More dollars for education—millions more—and more education for every dollar.

If business had headed the army of 10,000 educators who came to Chicago from all parts of the country they probably would have been blessed with some such battle cry.

That legend was the keynote of a majority of addresses at the opening sessions. Perhaps Payson Smith, president of the department of superintendence, sounded it as well as any.

"We, as a people, may as well realize, first of all, that if we are to progress in accordance with the standards we have set," Mr. Smith said, "we must lower our purses strings to fit men and women for their life work. We must spend more money on our schools. We must increase our efficiency—we must give more to the dollar."

Eight Million Persons Neglected.

John W. Abernethy, superintendent of education in Alabama, complained that the government annually is spending more to exterminate boll weevils, cattle ticks, and hog cholera, than for educational purposes, adding that there are 8,000,000 persons in the United States who cannot read or write the English language.

Another speaker cited the millions spent by the American public every year for luxuries—\$3,000,000,000 for automobiles, more than \$2,000,000,000 for tobacco, nearly as much for confections, while the nation's educational bill last year reached about \$1,500,000,000.

Gum and Liberal Arts.

"I don't know," said H. S. West, superintendent of schools at Rochester, N. Y., "how much we spend for chewing gum each year, but I am reasonably sure that if we stopped buying it tomorrow the supposed saving for school development would not readily be realized upon."

"I believe, however, there is just

TEACHERS DISCUSS POLITICS

United States presidential candidates were the chief topic of discussion at a breakfast "question and answer conference" yesterday under the auspices of the Institute services.

On the question, "Will Coolidge be re-elected?" the vote was 57 to 3 that he would. On McAdoo, 53 voted that he is eliminated and 29 that he is not.

The voting on Hiram Johnson's chances for the nomination were 57 against 3 for. Thirty-nine voted that Coolidge should request Daugherty's resignation and 15 that he should not.

Dr. Thomas H. Briggs, specialist on junior high schools, of the teachers' college of Columbia university, New York, gave an outline of the junior

high school system to members of the board of education, members of the school plan commission, and several Chicago principals at a meeting in the office of Supt. McAndrew yesterday.

Mabel Carney of the teachers' college at Columbia university, specialist on rural education and now has charge of that department at Columbia. She started her career at McComb, Ill.

Among the recipients given for the convention delegates last night was one by the Principals' Club of Chicago at the Art Institute. Earlier in the evening members of the Pedagogical club entertained some of the out of town educators at a dinner in the Hotel Morrison.

so much money to be spent. If we educate the public to education, the public will conclude it needs education more than it does chewing gum, and so buy more education."

At the Blackstone hotel the deans of women met. Mrs. B. F. Langworthy of Winnetka, Ill., national chairman of recreation and social standards committee of the Parent-Teachers' association, spoke.

Defends Flippers, Flippers.

"Our young people are reading an extraordinary amount of undesirable stuff," Mrs. Langworthy said, "but our boys and girls are not as demoralized as popular opinion pretends. To a

large extent this tendency to read trash can be traced to a spirit of experimentation and curiosity and to great prevalence of such matter on the news stands today."

The superintendents of cities of a population of more than 100,000 met in the ballroom of the Auditorium hotel.

Dr. Edwin Broome, superintendent of schools of Philadelphia, declared that "what hurts the taxpayer is putting his money into having his child taught a great mass of obsolete material which will never do any good."

Dr. Broome declared much of the material still included in school courses was introduced for "mental discipline," but should be weeded out as useless.

MINISTERS WAR ON LOOP SHOWS' NUDITY DISPLAY

BY THE REV. W. R. NORTON.

Chicago's Randolph street "red light" is to be hit by a cleanup drive by the Chicago church federation representing fifteen denominations and 650 churches.

The reputedly demoralizing character of certain theaters in the loop was brought before the ministers, who met yesterday at the Central Y. M. C. A., by the Rev. John W. Funston, pastor of the Windsor Park Lutheran church. He urged that a committee be appointed to visit Mayor Dever and other officials with a protest demanding that the exploitation of female nudity in Chicago be stopped.

These on Committee.

Dr. Funston, Dr. Simon Peter Long, pastor of the Wicker Park Lutheran church, and Dr. A. F. Sweet, pastor of

the Central Park Presbyterian church and chaplain of the Legion, were put on the committee. They were instructed to cooperate with the commission on social and civic relations of the Church federation in pushing the matter to a successful issue.

"I was in my study last evening," said Dr. Funston, "when a man from my church called to see if something could not be done to stop the indecent shows now exhibiting in the downtown district."

"He said young women in one of these shows, which I do not now care to name, appeared on the stage nude from the waist line up and with but scanty clothing from the waist line down. These girls did not have a ribbon or a piece of gauze on the upper part of their bodies."

Olives New York Cleanup.

"Some time ago there was an outcry in New York of a similar character and churches and reform bodies got busy and produced results. I understand that one of these downtown theaters advertised that Chicago was receiving the first opportunity to see the show before taking it to New York. I am wondering if their preference for Chicago over New York is not the result of the recent cleanup there."

"This CHICAGO TRIBUNE referred editorially to this condition (it was on Jan.

8) as 'the Randolph street red light' and said, 'We suggest the Committee of Fifteen close the segregated district on Randolph street.'"

GARMENT UNION GIVES BOSSES 48 HOURS' GRACE

A forty-eight hour period of grace, to be ended in a strike of members of the International Ladies' Garment Workers' union, was given to manufacturers in Chicago last night by Mayor Fierstein, vice president of the union.

The workers' demands, he said, are for increased wages, establishment of "unemployment insurance," by which an income is assured during slack periods, and the organization of arbitration machinery for adjustment of disputes.

Fierstein said the strike was voted by the general strike committee, empowered by the members to act whenever necessary. Ninety per cent of the union's members are women.

KIMBALL SMALL GRAND

ONLY by possessing one of these marvelous little instruments can you realize how wonderfully you can enrich your home life at extremely moderate cost. The astonishing power, volume, and purity of tone revealed in the KIMBALL small Grand place it in fair comparison with the larger grands; yet the limited space it occupies makes it as suitable as an upright for a home or apartment of moderate size.

Price \$885—Monthly Payments, if Desired

The KIMBALL Guarantee and one-price policy protect you in your purchase. Come and hear a demonstration; the moderate price, the exquisite design, and the beautiful tonal qualities of this superb little Grand will determine your decision beyond question.

HOUSE BOOST TAX ON ESTATE 40% MAXIMUM

Republicans Desert
to Vote Amendment

BY GRAFTON WILSON

Washington, D. C., Feb. 25.—Maximum Federal estate taxes and inheritance taxes were today voted by the House of Representatives, 25 per cent over the 40 per cent maximum today.

The vote was 250 to 170, a combination of Democrats and Republicans, and some members from the agricultural group put over an amendment to the bill in the House.

The House approved the amendment to the bill in the House of Representatives, 250 to 170.

The new estate tax rates, compared with the existing rates, are as follows: The present maximum is 40 per cent.

The new estate tax rates, compared with the existing rates, are as follows: The present maximum is 40 per cent.

HOUSE BOOSTS TAX ON ESTATES TO 40% MAXIMUM

Republicans Desert Party
to Vote Amendment.

BY GRANTON WILCOX.

Washington, D. C., Feb. 25.—(Special.)—Maximum federal taxes on estates and inheritances were boosted today over the protest of Secretary of the Treasury Mellon.

A combination of Democrats, insurance Republicans, and some Republican members from the agricultural group put over an amendment to the estate tax bill in direct defiance of the wishes of the administration.

Secretary Mellon has protested that estate tax rates already are excessive and in this view he had the support of President Coolidge. Yet the amendment offered by Representative Ramseyer (Rep., Ill.) proposing a scale of graduated rates ranging from 1 to 40 per cent. The present maximum is 25 per cent.

The house approved the amendment by a vote of 190 to 110.

Comparison of Rates.

The new estate tax rates, compared with existing rates, applying to the estate of the net value of an estate of those stated, follow:

Net Estate	Existing Rate	New Rate
Up to \$10,000	1%	1%
\$10,000 to \$20,000	2%	2%
\$20,000 to \$30,000	3%	3%
\$30,000 to \$40,000	4%	4%
\$40,000 to \$50,000	5%	5%
\$50,000 to \$60,000	6%	6%
\$60,000 to \$70,000	7%	7%
\$70,000 to \$80,000	8%	8%
\$80,000 to \$90,000	9%	9%
\$90,000 to \$100,000	10%	10%
\$100,000 to \$200,000	15%	15%
\$200,000 to \$300,000	20%	20%
\$300,000 to \$400,000	25%	25%
\$400,000 to \$500,000	30%	30%
\$500,000 to \$1,000,000	35%	35%
\$1,000,000 and over	40%	40%

Under the new rates, an estate of \$100,000 would pay \$15,000 in taxes, instead of \$12,500 under the existing rates.

Representative Green (Rep., Ill.) of the agricultural group, and a number of the ways and means committee, proposed an amendment providing for a tax ranging from 1 to 10 per cent on gifts, with a view to distributing the burden of high surtaxes on the estates of the wealthy.

The amendment was defeated, 152 to 141.

ANSWERS HUSBAND

MRS. GLADYS E. HOPP.

Mrs. Gladys E. Hopp, daughter of Master in Chancery Adolph H. Hopp, of 5539 South Peoria street, has filed a cross bill to her husband's suit for divorce in Los Angeles, charging him with cruelty and non-support.

Mrs. Hopp, who is well known as a singer on the concert stage, was married to Jeremiah Hopp at Visitation church on Nov. 25, 1917. At that time her husband was a member of the ambulance corps at Camp Logan. He is now employed in a Hollywood bank.

In his bill Hopp charges his wife with desertion. He says he offered to provide her with a home, but she refused to live with him. Mrs. Hopp replies that the apartment was over a post-ventured saloon in which her husband was interested. Judge Shaw in Los Angeles yesterday took under advisement the question of whether Hopp shall pay his wife's expenses to California to defend her suit or whether desertion shall be taken from her here.

600 and \$46,000. A tax of 10 per cent would apply on amounts above \$46,000.

"TIGER GIRL," ON STAND, ACCUSES MALM OF KILLING

Says She Was with Him
at Lehman Murder.

(Picture on back page.)

Katherine Walters Baluk-Malm took the witness stand in Judge Steffen's courtroom yesterday and confessed she was with her common law husband, Otto Malm, when Edward Lehman, amateur watchman, was slain last fall.

"But I didn't know they planned a robbery when I started out with Otto and Eric Norine for a joyride," she told the jury.

"I thought we were going to get something to eat. Otto tried to shoot me, too, because he feared I would tell that he had killed Lehman."

Mrs. Malm's testimony came as the sensation of the trial.

It had been assumed by the prosecutors that she was planning to fight the murder charges by attempting to prove an alibi.

When Attorney Jay J. McCarthy called her to the witness stand, the court fans showed new interest in the trial. A few formal questions which revealed her age as 19 years and her birthplace as Austria-Hungary were asked.

Mrs. Malm's Story.

"Now, relate to the jury where you were on the night of Nov. 5," Attorney McCarthy said.

"I was in bed in the home of a friend on Orchard street. Otto came and shook me by the arm. 'Come on, we are going for a ride,' he said. I asked him why we were going out at that time of night, but he said for me not to mind."

"We got in Otto's silver, Eric Norine was driving. We drove around for about an hour and finally landed on the north side. Eric pulled up to the curb at an alley and got out. He went back into the alley."

Tells of Shooting.

"I stayed in the car for about three minutes when Otto came back and shouted, 'Come on in, I want you.' I went back. Otto went down a stairway and I leaned up against the fence wondering what he was doing. I no-

longed a sign above, 'Delson Sweater Manufacturing company.' A couple of minutes later a man came down the alley with a flashlight. When he saw Otto he asked what he was doing there. Otto answered with a shot and the man fell. Another man ran up and Otto pumped two more shots into him. I screamed and ran. Then Otto fired at me."

Otto Picks Her Up.

"Damn you, take that. Dead men tell no tales," he shouted. I felt a shot in the head and fell. Otto picked me up and carried me to the car. Then we went to a doctor's and got fixed up."

"Did you ever carry two guns strapped on a belt about your waist?" Attorney McCarthy asked.

"No, sir. I never carried or fired a gun in my life."

Mrs. Malm corroborated in many details the story told by Blanche King, who said Mrs. Malm confessed to her that she had killed Lehman.

"I told her about the shooting, but did not say I killed any one. I said my husband got in a gun battle and I got shot during the firing. She is lying when she said I carried two revolvers and threatened to kill any one who attempted to arrest me."

The defense will probably complete its case this morning, and the arguments begin this afternoon. A verdict may be reached tomorrow.

Gaston B. Means Sought
for Trial as Defrauder

New York, Feb. 25.—Federal Judge Augustus N. Hand today ordered that a physician be dispatched to Washington to examine Gaston B. Means, former special agent of the department of justice, when he failed to appear for trial on one of four indictments charging him with conspiracy and with having used the mails to defraud. His attorney said Means was too ill to appear, but government counsel told the court Means recently had been seen walking about the streets.

MICHIGAN AND MONTANA FIGURE FOR DENBY'S JOB

Politician and Governor Praised.

(Picture on back page.)

Washington, D. C., Feb. 25.—Initial consideration given by President Coolidge to selection of a successor to Edwin Denby as secretary of the navy has revolved about Joseph M. Dixon, governor of Montana, and James E. Davidson, Republican national committeeman from Michigan.

Inasmuch as Mr. Denby's retirement from the cabinet does not become effective until March 10, and because of more immediate pressing questions, the President, it was said today at the White House, has considered the situation of the navy post only in a preliminary way.

It was acknowledged, however, that a number of telegrams and letters had been received endorsing both Dixon and Davidson.

Gov. Dixon's name has been put forward by several administration advisers, who have pointed to his qualifications, and also to the fact that he comes from the far west, a section to which it has been generally believed Mr. Coolidge would turn in search of a man to fill the first vacancy to occur in his cabinet.

Three endorsing the Montana governor also have pointed out his connections with the Progressive group.

Mr. Davidson is a shipbuilder and lumberman of Bay City, Mich., and comes from a family which has been engaged for years in the shipbuilding business on the great lakes.

Those endorsing him also say that inasmuch as the retiring secretary came from Michigan his successor should be chosen from there.

For those who must practice economy, it is good to know that satisfactory glasses, fitted after a scientific examination involving no fee or obligation, may be secured at Schulte's at the lowest price for which good glasses may be had anywhere.

And for those to whom style is as important as correct lenses, a wide variety of frames is available within the Schulte price-range.

CITY AND INSULL AGAIN AGREE ON TRACTION PLANS

Court May Bar Latter's Trip to Europe.

Mayor Dever and the traction heads "made up" yesterday. Samuel Insull, chairman of the elevated lines, dropped in to see the mayor, announced he was leaving for England on Wednesday, and promised to offer his properties to the city when he returns from Europe in a month. Leonard Busby, president of the Surface Lines, insisted on an early resumption of negotiations for the purchase of the purchase of the city.

Some doubt developed last night, however, as to whether Mr. Insull will leave the city at all. It was learned the minority stockholders of the "L" properties who claim they were frozen out in the recent consolidation and sale of the Oak Park line will go into the Circuit court this morning and ask for a ruling on a court order to keep Mr. Insull in the city. They will ask that Mr. Insull be held here until a final hearing is had on their petition filed a month ago for an accounting and discovery of assets and the appointment of a receiver for the "L" line.

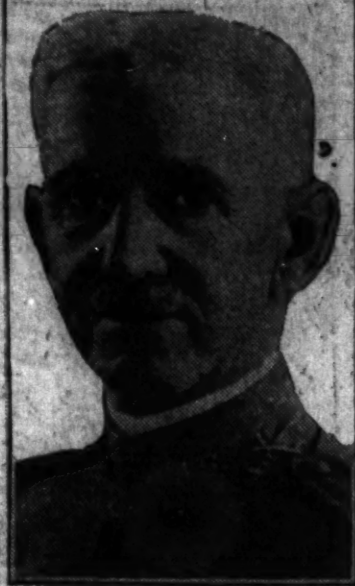

Mr. Insull informed the mayor that during his absence Patrick J. Lucey, former attorney general and counsel for the elevated lines, will receive the city's offer for the properties and prepare data on which a grant proposal can be made when he returns. Immediately thereafter negotiations to reconcile the two proposals will be undertaken, Mr. Insull added.

Must Make Extensions. While no attempt will be made at this time to secure council permission for further rights in the loop, extension of service in outlying districts must be made as soon as possible, Mr. Insull is said to have told the mayor. "You are fighting to get the surface lines to make much needed extensions, while we are willing and anxious to extend our lines," he said, according to the mayor.

Mr. Insull's recent announcement of plans for extensions to the elevated lines involving a \$23,000,000 expenditure and a hint that if the city could not finance subway construction, he could, were interpreted by the administration as a slap at the municipal ownership program.

The mayor was admittedly relieved.

DECORATED

BRIG. GEN. W. J. NICHOLSON.
(Mollet Photo.)

One of the highest honors within the gift of the French government will be bestowed on Brig. Gen. William J. Nicholson of Chicago next Monday at Washington, D. C., when Ambassador Jusseum will present the Chicagoan with the title and decoration of commander of the Legion of Honor.

Brig. Gen. Nicholson was in command of the first officers' training camp at Fort Sheridan during the summer of 1917, and later commanded the 79th division of the American expeditionary forces in France.

After his hour's conference yesterday with Mr. Insull, and frankly pleased when informed that Mr. Busby had, of his own accord, urged that the parleys between the surface lines

owners and the city's representatives be resumed at the earliest moment. "Mr. Insull came to tell me that he was leaving in a few days for England," Mayor Dever said. "He wished to tell me, he said, that he had no idea of embarrassing the administration in its plan to negotiate the purchase of his lines as well as the surface lines. He is more than willing that the negotiations should continue and asserted that there is no truth in the report that he intends to jam new franchises and permits through the council. He told me he had no intention of asking further rights in the loop at this time, either by subway construction or elevated extensions."

Opposes Using City Money. "If Mr. Insull can raise the necessary \$23,000,000 to build subway by subscription or through banks, I am for his plan," Ald. Schwartz declared. "If it doesn't cost the city any money, I am for it. I would be willing to help get franchises to connect the elevated with the subway."

However, if I am correctly informed, his subway plan hinges on the use of \$15,000,000 of the city's traction fund for the sole benefit of the elevated lines."

KILLED REMAINING STREET.

Hugh McCabe, 5590 Calumet avenue, was instantly killed yesterday when he slipped into a manhole at 37th street and Gary avenue while he had been repairing.

"ELECTRIC CITY" AIM OF INSULL'S 30 MILLION PLAN

BY O. A. MATHER.

This year will see Chicago and its environs linked up into one of the greatest electric power producing districts in the country and in the world.

With an expenditure of nearly \$30,000,000 this year the Commonwealth Edison company will complete the last link of a superpower trunk line system around Chicago.

These plans and purposes were explained yesterday afternoon by President Samuel Insull at the annual stockholders' meeting. In addition to being heard by a large number of attending stockholders the address was broadcast by radio for the benefit of the company's 35,000 stockholders.

Developing Superpower. "There has been a great deal of discussion in the newspapers and magazines on the development of power in very large quantities for the benefit of

industry, the arts, and private homes of the people," Mr. Insull said. "During this year we shall spend in new construction \$23,375,000 and more than \$18,000,000 will be used in building our new Crawford avenue station, which alone will ultimately have a capacity of upward of 600,000 kilowatts."

For economic reasons it is necessary that the various systems in a given territory be connected closely, so that they can interchange power wherever it is an economical thing for them to do.

Work is under way for a 122,000 volt superpower line from the Calumet station south to the Chicago city limits to connect with a similar superpower line feeding east to the Northern Indiana Gas and Electric company, to supply the steel district and on east, and running west to tie in with the Joliet station of the Public Service company.

While a considerable part of this line is outside of the city limits, it will when completed tie in all of the large generating stations owned by the Commonwealth Edison company and those in the territory surrounding Chicago and thus provide protection to continuous service as well as result in considerable economies in operation.

"The Commonwealth Edison company has the largest capacity and the largest maximum load of any single company in the world. There is a distinction between maximum load and actual kilowatt hour output. "At present the largest output of any one company is that of the Niagara Falls Power company. Its output was 2,595,347,000 kilowatt hours in

1923, while our output was 2,573,287,000 hours, so there is little difference. "Chicago District Rank Third. "The great power districts of North America rank about as follows: Niagara, taking both Canadian and American sides of Niagara falls, with an output of upwards of 4,500,000 kilowatt hours; Greater New York, with an output of 2,896,540,000 hours in 1922; Greater Chicago, with nearly 2,750,000,000 hours; southeastern, with 2,563,000,000 hours' output; and central California, with 2,354,000,000 output."

New Illinois Leads. Mr. Insull then gave data showing

that Illinois contains the greatest power facilities per capita of any state and more even than New York per square mile.

"Illinois has 5,392 miles of transmission lines," he said, "and a total generating capacity of a little under 2,500,000 kilowatts, population a little under 6,000,000, and area of about 54,000 square miles. Its kilowatt capacity per capita is .187 and the miles of line per square mile .112. New York state's comparison in kilowatt capacity per capita is a little lower, and in miles of line per square mile still lower."

PROTECT Your Doctor and Yourself

Which of these two men has learned the secret of 15 minutes a day

The secret is contained in the free book offered below. Until you have read it you have no idea how much 15 minutes a day can mean in growth and success. Send for your copy now.

HERE are two men, equally good-looking, equally well-dressed. You see such men in every social gathering. One of them can talk of nothing beyond the mere day's news. The other brings to every subject a wealth of sidelight and illustration that makes him listened to eagerly.

He talks like a man who has traveled widely, though his only travels are a business man's trips. He knows something of history and biography, of the work of great scientists and the writings of philosophers, poets and dramatists.

Yet he is busy, as all men are, in the affairs of every day. How has he found time to acquire to rich a mental background? When there is such a multitude of books to read, how can any man be well read?

The answer to this man's success—and to the success of thousands of men and women like him—is contained in a free book that you may have for the asking. In it is told the story of Dr. Eliot's great discovery, which, as one man expressed it, "does for reading what the invention of the telegraph did for communication." From his lifetime of reading, study and teaching, forty years of it as president of Harvard University, Dr. Eliot tells just what few books he chose for the most famous library in the world; why he chose them, and how he has arranged them with notes and reading courses so that any man can get from them the essentials of a liberal education in even fifteen minutes a day. The booklet gives the plan, scope and purpose of

Dr. Eliot's Five-Foot Shelf of Books

The fascinating path to a liberal education

Every well informed man and woman should at least know something about this famous library.

"For me," wrote one man who had sent in the coupon, "your little free book meant a big step forward, and it showed me, besides, the way to a vast new world of pleasure."

Every reader of this advertisement is invited to have a copy of this handsome and entertaining little book. It is free, will be sent by mail, and involves no obligation of any sort. Merely clip the coupon and mail it today.

Send for this Free booklet that gives Dr. Eliot's own plan of reading.

AN ELECTION TO BE CLEARED UP

Investigations of the judicial election reveal what seems to be ugly conditions. The Better Government association has collected facts which demand thoroughgoing judicial scrutiny. If the election were allowed to go without challenge, it might mean the end of honest balloting in this country. It is not necessary to charge any of the candidates with fraud at this time, but it is necessary to find out what happened. The exhibits in the case are full of astonishing irregularities, oddities, and inexplicable figures.

The vote for Judge Emanuel Miller in the Twenty-ninth, Twenty-fourth, and Twenty-seventh wards was one which it would be difficult to equal in any election. In eighteen precincts of two of these wards Miller received 7,997 votes out of a total of 4,433 cast, as shown by the poll books. The investigators' exhibits indicate that 197 voters listed on the poll books as having voted say that they did not vote. The number who voted twice, according to the poll books, was 179; four voted three times, thirteen dead persons were listed as voting, and 3,885 persons who had moved away before election or who were unknown were listed as voting. The total of apparently fraudulent votes in these eighteen precincts, not counting possibly fraudulent votes by affidavit, is put at 2,530.

In the thirteenth precinct of the Twenty-fourth ward Miller is credited with receiving 285 votes when the poll book shows 218 votes cast. In other precincts he received every vote cast. In nearly every precinct there is the record of the voting of nonresidents, unknown or dead persons, and of persons voting two or three times.

This serious exhibit cannot be passed over. From time to time there are allegations in an election, and, if they are disregarded, elections will be run as a business and offices will be filled by corruption. For the most part, we believe, local elections honestly reveal the decision of the voters, but they will not continue to do so if the proper authorities accept returns without question. A large vote for Miller in the districts mentioned can be understood. Morris Miller, his father, is a thoroughgoing master of politics, and he did everything he could for his son.

All the authority which is given the enforcement of election laws and the prevention and punishment of fraud must be employed to clear up the questions raised by the investigation. The people of Chicago might as well stay at home on election day and surrender their control of their government if fraud can elect without protest or punishment.

FOR CHICAGO BEAUTIFUL

The award of medals in the annual contest for the most beautiful new, reconstructed, buildings in the north central district reflects a spirit and serves a purpose which should be sources of both pride and profit to Chicago. It is a spirit of appreciation of material beauty and a purpose of civic advancement in which the entire city ought to join.

The Tribune takes pride in the belief that it has contributed in a material way, through its \$100,000 international prize competition for the most beautiful office building obtainable, to this phase of civic improvement. That is both a civic and a selfish pride. But the pride which we, as a Chicago institution, take in the development of architectural beauty throughout the city is unselfish. And that is a pride which every resident of Chicago, and especially every property owner, has a right to share, to the ultimate glory of Chicago.

The old days of commercial rivalry for the tallest building in the world are passing, if they have not passed. A new conception of what is profitable is appearing, and in that conception beauty and art, combined with utility, are taking their place as a factor in the building industry. It is coming to be recognized that the architectural beauty of a neighborhood or an entire city is both a material and an aesthetic asset. To cultivate recognition and application of that idea is the purpose of the Lake Shore Trust and Savings bank's medal contest. It is thoroughly commendable.

COSTLY ECONOMY ON SMOKE

Before the new city budget is adopted in detail there is a matter of \$20,000 potential profit to the city treasury and of hundreds of thousands of dollars of indirect profit to the taxpayers which ought to have the close attention of the council, the mayor, and the residents of Chicago who elect them.

The proposed budget does not contain the additional appropriation for smoke abatement in the health department budget recommended by the citizens' smoke abatement commission. That item was struck out summarily by the budget committee. In justice to the city treasury and to the taxpayers and other residents of Chicago it ought to be restored. It would mean a cash profit to the city. It would do so in this way:

We already have an ordinance providing for a fee of \$1 for permits for the erection, installation, reconstruction, or alteration of any fuel burning apparatus. There are at present 10,000 high

pressure boilers in the city, and each is "reconstructed or altered" at least twice a year, according to the commission, which knows whereof it speaks, and speaks on the basis of study and experience without the slightest reference to the direct personal gain of any of its members. Therefore, 20,000 fees of \$1 each are available. But the department lacks sufficient men to cover the ground and make these collections. It needs \$30,130 a year to bring its force up to necessary efficiency. That item has been cut down to a minimum, and with it has been eliminated the possibility of collecting \$100,000 annually. Thus a direct cash profit of \$20,000 to the city has been sacrificed. That is false and costly economy. It ought to be corrected.

KEEP THE U. S. AMERICAN

Secretary Hughes offers convincing further objections of the state department to details of the pending immigration legislation, and forwards a protest against the bill from the Romanians legislation. The secretary of state appears to be determined to lighten various of the restrictions upon immigration contained in the pending bill. His interest seems to be more in the task of pacifying foreign countries which dislike the bill than in conserving the domestic advantages which the measure is designed to bring to this country.

Perhaps that is right and proper for the secretary of state. But it is also right and proper for the committee on immigration which prepared this bill, and for the congress which will be called upon to pass it, to have an eye first to our internal welfare. Immigration is primarily a question for domestic settlement, just as much as the choice of persons whom an American will admit to his home is a matter for his private decision.

Long and careful study of the course of immigration in this country, of its effect upon American political, economic, and social life, and upon its tendencies, has convinced Chairman Johnson of the house immigration committee, the committee itself, and, we believe, the great majority of American citizens, that the flood of aliens to the United States must be restricted and selected. We have ample reason to have confidence in this belief, and to take alarm at the prospect of any other course.

Such another alarming course is that contained in Mr. Hughes' suggestion that no quota restrictions should apply to any American republic. That, of course, is a friendly gesture covering the whole western hemisphere, but it is a dangerous one. We already have heavy immigration from Mexico. These Mexicans are no more assimilable than are Italians or Greeks or Poles. Similar immigration from Central or South American republics would fit into American life little better than would aliens from Portugal, Spain, or Bulgaria. True, they do not seek to come in such numbers, but the principle is the same. The whole point of the bill must be to reduce greatly the numbers of immigrants and to select the quality more carefully to comport with American needs. We trust no suggestions from Secretary Hughes will cloud that point.

SAVE THE AIR MAIL

Elimination of the air mail appropriation from the postoffice bill which recently passed the house of representatives ought to be a matter of serious concern to all thinking Americans. Upon the maintenance of the air mail service depends not only the important item of time saving in postal service, with a direct effect upon business efficiency and success, but also the important item of keeping up a practical national interest in aviation, with attendant development of flyers, aviation mechanics, landing fields, etc., with all that means to the country in case of an emergency of war.

All these things are summarily sacrificed by the house action, unless the senate corrects the error and public opinion is sufficiently aroused to see that congress approves the appropriation. An organization which has been in process of development and improvement under adverse conditions for five years will be destroyed immediately after the exhaustion of the present appropriation, unless a new one is voted. The inevitable experience of these years will be lost to the nation, and eventually when commercial prosperity forces the restoration of the service, as it must inevitably do, greatly increased expenditures will be necessary to accomplish reorganization.

There has been a fight in the house upon this item of postoffice appropriation every year since it was first suggested. Few things in our history reflect more sadly upon the narrowness of our representatives. The natural assumption is that the air mail service is secured because it contains no pork. If we must submit to the destruction of an essential governmental activity for that reason, by all means let us put some pork into it. It may be considered shameful even to make such a suggestion, but the importance of the service cannot be overestimated. If our national intelligence is so low that rural congressmen are voting against this service because it isn't giving them new post-offices, let us give them landing fields instead. At the end, as a national asset, they would be worth the money.

Our air mail service has made an enviable record. It has won for two consecutive years the Collier trophy for the most notable achievement in American aeronautics. It has developed night flying to an unprecedented extent in this country. It has caused improvement of airplane construction. It is invaluable. It cannot be allowed to die.

The Other Side

PROTEST JUSTIFIED.

(Cleveland Plain Dealer.)

Three Illinois representatives have bills in congress to legalize Chicago's present lawless diversion of water from Lake Michigan for power and sanitary purposes. They embody the principle of the McCormick amendment of the last congress. They would confer on behalf of Chicago a policy challenged in two suits now pending in the United States Supreme court.

Meanwhile the Shipping Federation of Canada holds its annual meeting at Montreal and listens to a report by its president, Robert W. Bellford, devoted in considerable part to a protest against Chicago's illegal diversion of water. The low levels of the St. Lawrence prevailing the last two or three months have been due, those fishermen traffic men believe, to the volume of water extracted at the head of Lake Michigan—a volume roughly equal to the entire low water flow of the Mississippi at St. Paul.

Montreal is interested primarily in maintaining levels in the river which constitute Canada's main artery of commerce. A score of cities on both sides of the lakes are vitally concerned in protecting levels all the way from Chicago to the ocean. This theft of water which belongs to the people of the United States and Canada, jeopardizes investments running into the millions. It ought to be checked forthwith.

As long as this outrage by Chicago is permitted to continue, we doubt seriously whether the Canadian government can be persuaded to go into partnership with the state to build the St. Lawrence waterway.

How to Keep Well.

By Dr. W. A. Evans.

Questions pertinent to hygiene, sanitation, and prevention of disease, of interest to general interest, will be answered in this column. Where space will permit, or the subject not suitable, letters will be personally answered, or sent to proper institutions, and where a diagnosis or prescription for individual disease, requests for such service cannot be answered.

(Copyright, 1934, by Dr. W. A. Evans.)

CAUSE OF COLDS.

We talk so much about infection and contagion in pneumonia, coughs, and colds that we are liable to forget the part played by what is called influenza in army camps at San Antonio, Tex., in the winter of 1913. In three months about 300 soldiers had severe coughs and colds, with fever, pneumonia, and other infections of the nose, throat, and lungs. The disease hit all the barracks of an epidemic, and Dr. Hibb regarded the outbreak as a recurrence of the influenza which we had in 1913.

He studied the disease in connection with the influenza, high winds, and cold spells, and he inquired of each sick man as to whether he had gotten wet or cold or had any exposure just before he got sick which might account for the illness.

Among the answers he got were: "Because warm while dancing had took off coat and went for dance." "Got cold while walking guard." "Got wet going home from dance." "Ran to fire drill." "Got hot." "Got hot and removed blouse to cool off." "Fall asleep while working." "Lay down to sleep and sleep, to shoot on rifle range." "Fell asleep on top of bed cover." "Slept with too little cover." "Wading in water." "Wading in water." "Sat on cold bench." "Had only two blankets." "Worked in warm room." "Sat in cold tent." "Lay on cement floor while working on a truck." "Sat in cold laundry room." "Lay down to sleep and sleep, to shoot on rifle range." "Fell asleep on top of bed cover." "Slept with too little cover." "Wading in water." "Wading in water." "Sat on cold bench." "Had only two blankets." "Worked in warm room." "Sat in cold tent." "Lay on cement floor while working on a truck." "Sat in cold laundry room." "Lay down to sleep and sleep, to shoot on rifle range." "Fell asleep on top of bed cover." "Slept with too little cover." "Wading in water." "Wading in water." "Sat on cold bench." "Had only two blankets." "Worked in warm room." "Sat in cold tent." "Lay on cement floor while working on a truck." "Sat in cold laundry room." "Lay down to sleep and sleep, to shoot on rifle range." "Fell asleep on top of bed cover." "Slept with too little cover." "Wading in water." "Wading in water." "Sat on cold bench." "Had only two blankets." "Worked in warm room." "Sat in cold tent." DEVER TO AID DRIVE TO GET STUART PAINTING

New Impetus to Purchase
of Washington Portrait.

The drive for the purchase of the famous Gilbert Stuart painting of George Washington, now hanging in the Art Institute, is due to receive new impetus today when Mayor Dever appoints a committee of prominent citizens to campaign for contributions for the fund. A list containing a large number of names has been submitted to the mayor as possible members of the committee and he indicated that he would take great care in selecting the committee.

The city's children, through the medium of the public schools, will be given the chance to contribute tomorrow, when teachers and principals will accept pennies, nickels, dimes, and quarters from their pupils in order that they may have a share in bringing the masterpiece to Chicago.

Other moves which will swell the fund were started yesterday by Ald. Joseph O. Kostner (23rd), who announced that he will introduce at the city council meeting tomorrow a resolution pledging each alderman to contribute \$10 to the fund. Also, Ald. Kostner said, he would submit to the mayor a suggestion that each one of the 17,000 city employees be asked to contribute.

The purchase of this famous painting is a city wide project, and it should be a matter of concern to every citizen," Mr. Kostner said. "I shall ask the mayor to suggest to the head of each of the city departments that employees be allowed and urged to contribute a small amount, say 50 cents, toward the fund."

Several contributions were received yesterday by Robert R. Harshbarger, director of the Art Institute, who has asked Chicago to buy the picture. It is now owned by a New York firm and can be purchased for \$75,000. The largest donation yesterday was for \$100 by John R. Thompson. Anton J. Cernak, president of the county board, contributed \$50, and Charles Levy and Mrs. C. H. Chappell \$25 each.

How to Contribute.

The Tribune will welcome, as knowledge, and turn over to the Art Institute all contributions toward the fund. Letters should be addressed to Mr. Harshbarger at the Art Institute or to the editor of The Tribune.

The contributions received by The Tribune, Herald-Examiner, and Art Institute follow:

Previously acknowledged \$4,915.50
John R. Thompson \$100.00
Anton J. Cernak \$50.00

JOHN A. COLBY & SONS

129 NORTH WABASH AVE. NEAR RANDOLPH STREET

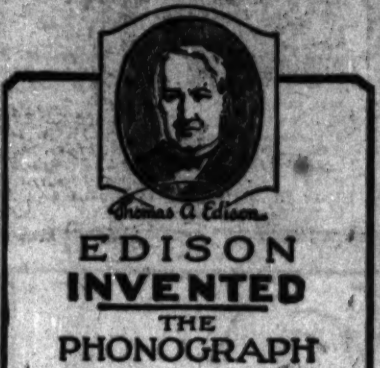

CUTTER TOWS IN 5 BOOZE BOATS WITHOUT BOOZE

New York, Dec. 25.—Fourteen men, and five motorboats, captured by the coast guard cutter Seminole as they cruised near the super-rum ship Butte town, with her \$3,000,000 cargo, were towed tonight into "Dead Man's" basin, the government's internment ship at the Battery.

A search of the seized craft failed to disclose more than an odor of liquor. Officers of the Seminole reported dragging ten cases of whiskey from the water near the scene of the seizures.

SEALERS PROVE FATAL.

Three year old Holstein Friesian died yesterday of seals received Friday when he fell into a tub of hot water in the family home at 120 East 125th street.

Oblong Table and Six Chairs In Spanumbrian Finish, \$155. One of the Values for the Dining Room

THIS is an opportunity to buy furniture made by a manufacturer noted for fine quality, at a price lower than that usually paid for an inferior grade. The Table, the popular oblong style, extends to eight feet, and the seats of the Armchair and five Side Chairs are attractively upholstered. The two-tone Spanumbrian finish gives the Suite a rich and distinctive appearance.

The Welsh Cabinet with shelves for china and a drawer for linens is \$88.

Eighth Floor, Wabash

Best Quality Worsteds Wiltons, 9x12, \$97.50

During Remaining February Sale Days

THESE Worsteds Wiltons of the best quality are among the outstanding features of the February Sale of Floor Coverings, which continues but four days. The patterns are developed in colors harmonious with the decorative arrangements of any room. The Rugs are a fine, durable weight, effectively fringed. Size 8.3x10.6 is priced at \$95.

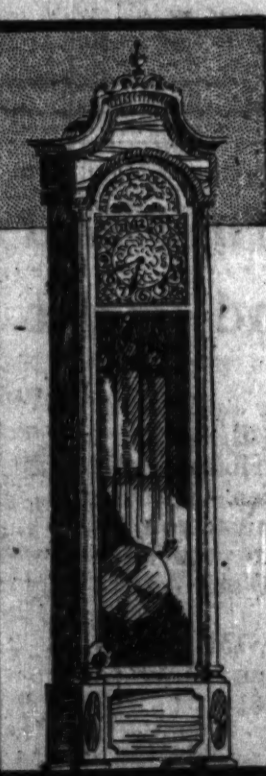

Wool Wiltons, 9x12, \$65

These fine quality Wool Wiltons are in attractive patterns and a heavy weight, which will give satisfactory service. Size 8.3x10.6, \$62.50.

Chinese Mats, \$5 and \$10

SOFT rose, blue and tan colorings, characteristic of this type of rug, form effective backgrounds for Chinese motifs. The Square Mats, 1.2x1.2, are \$5 each; the Oblong, 1.2x2.2, \$10.

Many remarkable Values in All Types of Floor Coverings
Third Floor, South and Middle, Wabash

Hall Clock for the Smaller Apartment

IT is only very recently that Hall Clocks, revealing the fine characteristics of very large and costly Clocks, have been adapted to the smaller house and apartment. The design shown here consequently has much interest, as its small size takes away nothing from excellence of construction, beauty and decorative quality.

The case is solid mahogany, with a two-tone finish. It has a 3-train movement, and in Westminster Chimes strike musically on the quarter hour. The dial is finished in silver and beautifully engraved. It is an absolutely dependable time-keeper, and an unusual value at \$255.

First Floor, Middle, Wabash

Rookwood Productions Are Individual in Design

ROOKWOOD creations, recognized among the foremost of American art productions, continue to maintain their character as highly individual creations. For no two Rookwood Vases, Bowls, Jars or other decorative pieces are identical, as each follows the distinctive model and design of its own artist. The warm or pale color treatments, the glazed, vellum, and other Rookwood finishes, reveal the great knowledge and skill required in the various delicate processes.

Rookwood is found exclusively here in Chicago.

Rookwood Room—Second Floor, Middle, Wabash

THOSE who are planning to take advantage of the low prices prevailing during the February Furniture Sale have only four more days to shop. Practically our entire stock of Furniture is reduced and there are hundreds of opportunities for saving on Furniture for any room, which will not be available again this season.

Odd Pieces and Samples of Living Room Furniture At Extraordinarily Low Prices

SOFAS, Chairs, Desks, Tables, Mirrors—hundreds of odd pieces, floor samples and manufacturers' samples are radically reduced for clearance. They display many different designs and embody fine materials. Representative pieces from the large collection are shown above.

Sofa (sketched) covered in fine mohair has down-filled cushions and carved mahogany finish base, \$175. Chair, \$100. Desk in antique mahogany finish, \$19.75. Mirror, \$5.75. Sofa, covered in velour, \$55. Chair to match, \$20 (not shown).

Eighth Floor, State

Reversible Velour Portieres in Harmonious Colors

THESE Portieres are made of a heavy lustrous quality of velour. They may be used between rooms with different color schemes, for they come in attractive color combinations—blue with blue, blue with rose, mulberry with taupe, blue with taupe, blue with mulberry and green with taupe. They are 48 inches wide and 2 1/2 yards long. Because of slight imperfections which are hardly noticeable and do not affect the appearance of the Portieres they are specially priced, \$21.75 a pair.

Fifth Floor, Middle, Wabash

Dainty Ruffled Curtains in a Variety of Sheer Materials

THEY are made with ruffles at the side and bottom and a heading at the top, so they are all ready to hang at your windows. You may select them in plain voile, marquisette, fancy voile and striped grenadine. Tie-backs come with each pair, and they are priced low. \$2 a pair.

Fifth Floor, Middle, Wabash

Gold Band Stemware

Among February Sale
Values

RECENTLY added to the collection for the final days of the February Sale is Gold Band Stemware, attractively etched, and with gold line decoration. Goblets, Sherbets, Parfaits and Ice Teas are, each, \$1.25; Lemonades, \$1.20; Water Tumblers, \$1.15.

Eighteen-piece Sets,
\$6.75 to \$12.50

Six Goblets, 6 Sherbets and 6 Tumblers make up each Set. With etched design, \$6.75; Blue with crystal, \$7.25; Iridescent, etched and colored, \$7.50; Light Cut, \$8 and \$9; Gold Band, \$12.50; Colored foot and stem with etched bowl, \$8.50; Plate etched in Adam design, \$10.

MOELLER—Caroline Moeller, nee Peters, died at her home, 1014 E. 12th st., at 10:30 p. m. Tuesday, Feb. 22, 1923, at the age of 74 years. She was born in Germany, and was the beloved wife of the late Andrew Moeller, a fond mother of William, Mrs. H. J. Kroeber, and Andrew F. Moeller. She was also the mother of Walter J. Moeller, Mrs. H. F. Roseman, and Mrs. Peterson. Funeral Tuesday, Feb. 23, at 2 p. m. from daughter's residence, 1335 Thordale-av. Kindly omit flowers. Burial at Forest Home cemetery.

MOORE—Etta Moore, Feb. 24, 1923, age 37 years. Funeral service at the residence of her mother, Mrs. Ophelia Kallinger, 1318 Bowen-av. Wednesday, Feb. 27, at 2 p. m. Interment at Arlington.

MORGAN—Mrs. Mary E. Morgan, 1018 Michigan-av. Stanton, Feb. 22, 1923, at the age of 74 years. Funeral service at the residence of her daughter, Mrs. J. H. Morgan, 1018 Michigan-av. Wednesday, Feb. 27, at 2 p. m. Interment at Arlington.

MURPHY—Honor Lardner Murphy, beloved wife of the late Denis, loving mother of James, William, Agnes, and Maryanne, sister of Michael, Thomas, and Elizabeth Lardner and Brother Conute, C. S. C., funeral Tuesday, Feb. 26, at 9 a. m., from residence, 4139 W. Adams-st., to St. Mary's.

NELSON—Mrs. Emily E. Newman Nelson, Feb. 24, 1924, mother of Edward Reynolds Nelson and Mrs. George E. Straley. Funeral services 2 p. m. Wednesday at late home, 815 Emerson st., Evanston, Ill. Interment Rosehill.

O'NEILL—Martin O'Neill, Feb. 24, age 54 years; beloved husband of Ruth, nee Watson, son of Margaret and the late John, brother of Mrs. J. Mooney, Mrs. M. V. Maloney, Mrs. Max Ephraim, and John O'Neill. Funeral Wednesday at 2 p. m. Greenwood 2001 S. Martin st., Chicago.

at the start of every day.

U. S. GRAND JURY INDICTS MCCRAY ON 28 COUNTS

Charges Mail Fraud and
Bank Law Violation.

Indianapolis, Ind., Feb. 25.—Warren F. McCray, governor of Indiana, yesterday appeared at the office of United States Marshal Meredith today and surrendered to two indictments returned by the federal grand jury Saturday. He will be arraigned March 1, having furnished two bonds of \$10,000.

The indictments charge the governor with using the mails to defraud with violation of the national banking laws and with conspiracy to violate the national banking laws. Representations as to his financial condition and as to the validity and character of "cattle papers" on which the governor obtained loans from banks are charged use of the mails to defraud.

179 Banks Defrauded.
One hundred and seventy banks, the indictments charge, were defrauded.
The national bank indictment is based on acts said to have been committed by the governor while he was president of the Discount and Deposit bank at Kendall, Ind., from which he resigned just before his financial crash last August.

McCray is charged with misappropriation of the funds of the bank, falsification of records and reports to the Federal Reserve bank in Chicago and destruction of notes held by the bank. The scheme by which McCray is said to have used the mails charges many notes were forged by McCray and sent to various banks, some of the supposed makers and that he sent out false letters purporting to be from the supposed makers of the notes asking extension of time for payment.

Forged Notes Charged.
McCray, the indictment says, gave as collateral for loans notes which did not represent genuine business transactions. Many of these notes, it is charged, were forged or had no real value.

McCray, the indictment says, gave as collateral for loans notes which did not represent genuine business transactions. Many of these notes, it is charged, were forged or had no real value.

Jan. 1.

SPEED KILLS TWO MEN; CLOCK OF DEATH NOW AT 58

Speed slew its fifty-eighth victim for the year yesterday when James Cleary, 55 years old, 852 South State street, died of injuries received on Sunday night when he was struck by a taxicab.

The police are looking for the driver of a Checker taxicab which killed Thomas Pascholski, 73 years old, in front of his home, 1543 Elston avenue, last night. The cab was speeding.

Two men, charged with driving automobiles while intoxicated, each were fined \$200 and costs in the Speeders' court yesterday by Judge John P. O'Connell. John Bergstedt, 5817 Indiana avenue, admitted the charge.

Lloyd Rutherford, 2358 Indiana avenue, won a week's stay by pleading that he was penniless.

LUDENDORFF TO BE TRIED TODAY; WITNESSES 'SICK'

MUNICH, Feb. 25.—(By the Associated Press.)—Predictions were made in many quarters tonight that the trial of former Field Marshal Von Ludendorff and his associates for their part in the November putsch, which will begin here tomorrow, will last but a few days.

There are reports that many of the witnesses have been taken ill and cannot possibly recover in time to give testimony in this particular case. It is even rumored that Dr. Von Kahr, former Bavarian military dictator, and others under subpoena to testify, have escaped beds in sanatoriums and are prepared to enter these institutions at a moment's notice.

Two men, charged with driving automobiles while intoxicated, each were fined \$200 and costs in the Speeders' court yesterday by Judge John P. O'Connell. John Bergstedt, 5817 Indiana avenue, admitted the charge.

Lloyd Rutherford, 2358 Indiana avenue, won a week's stay by pleading that he was penniless.

ROXBURY, MASS.

Old-timers remember a
north-east wind that blew at
84 miles an hour
IT WAS back in February, 1894. And
there probably wasn't a house in Chi-
cago that the cold air didn't penetrate—
driven at that speed.

They build houses differently nowadays. In-
sulated with BALSAM-WOOL a house wall—or
floor or roof—keeps out the cold of the hardest
blow that ever swept into Chicago.

Balsam-Wool
A marketing material for the walls, roofs and
floors of houses, it keeps out the cold and
keeps in the heat. It is a natural product, and
it is a natural product. It is a natural product.

"We're Going To Have Them Regularly From Now On, Son!"

NO
GREASE!
NO
SMOKE!

"Mother Bought a 'Wear-Ever' Griddle Yesterday When
She Discovered That It Doesn't Require Greasing and
Therefore Doesn't Smoke Up the House."

Don't deny yourself and family any longer the joy of the morning when
there's a snap in the air and frost on the windowpane—piping hot, brown-as-
a-nut griddle cakes!
The only objection to the making of griddle cakes has now been over-
come. The new

"Wear-Ever" Sheet Aluminum Griddle

NEEDS no GREASE and therefore makes NO SMOKE.

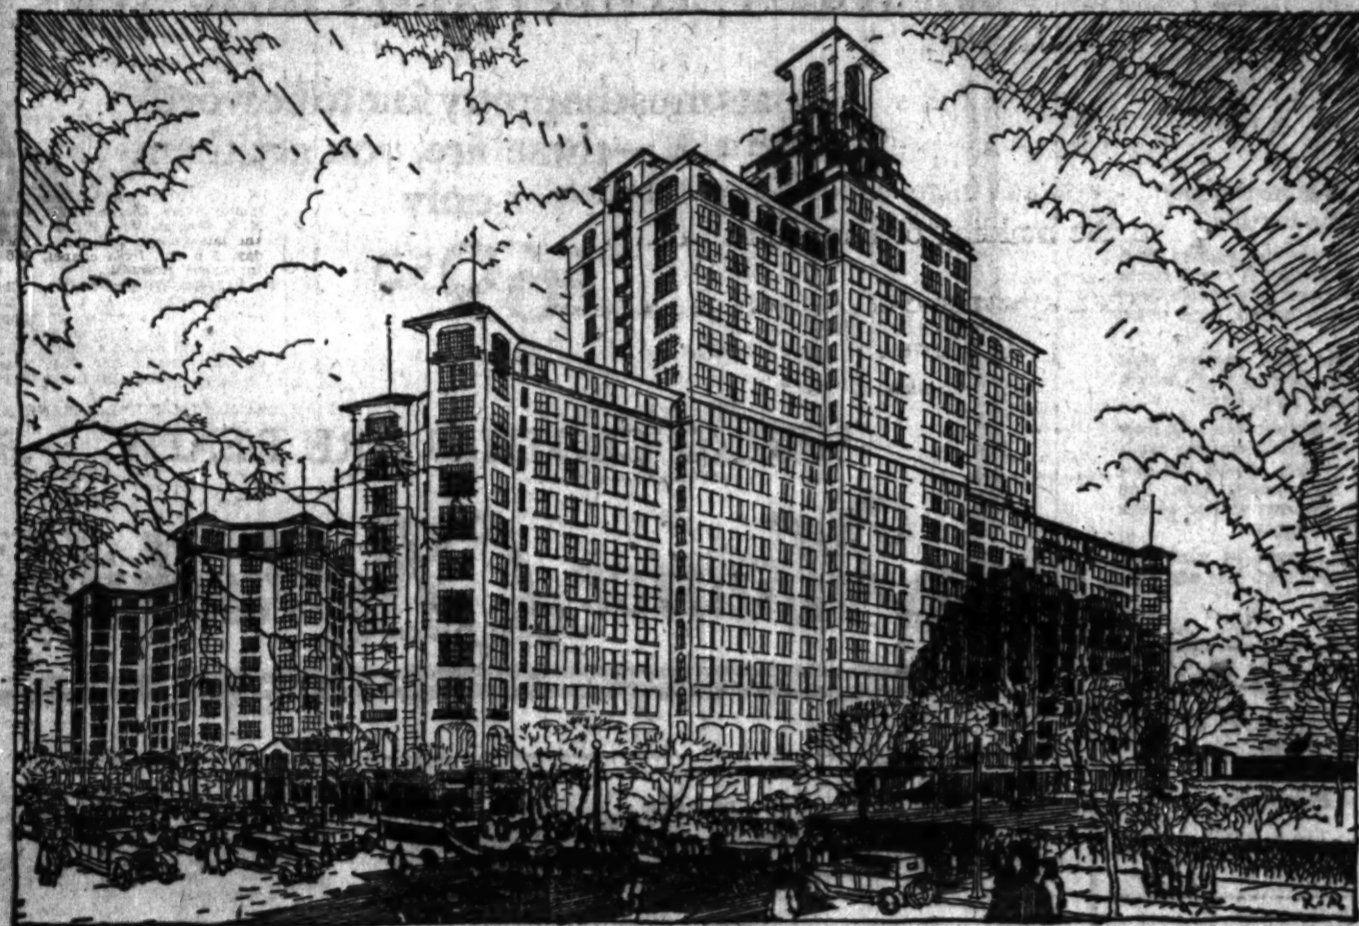

Griddle cakes are easy to make if you follow this simple recipe.
1 cup flour
1 teaspoon baking powder
1 tablespoon salt
1 tablespoon butter or margarine
2 cups milk or water (boiled)
1 cup sugar

Because any difficulties that have occurred in the past in the use of "Wear-Ever" Fry Pans were caused by improper heat regulation, two years ago we sold over a million small fry pans at a special price and with careful directions for regulating the heat. Subsequent increase in sales of all "Wear-Ever" Fry Pans has proved again that a pan in use is our best advertisement. For the same reason, we are now offering a small size Griddle at the special introductory price of \$1.35. It is a new item which the regular price when established will probably be \$2.50.

Edgewater Beach Hotel as it will appear upon completion of addition, May 1, 1924

Uptown Chicago has 90 Hotels Valued at \$30,000,000

UPTOWN CHICAGO has ninety hotels representing in land, buildings and equipment an investment of more than thirty million dollars.

Thirty of these are fine transient hotels, forty ideally located apartment hotels, and twenty comfortable residential hotels—giving a combined total of fifty thousand rooms.

Some eight thousand Uptown Chicago people receive over three million dollars a year as employees of these hotels.

The Edgewater Beach Hotel, shown in the illustration, is more than doubling its capacity with the completion of a new six hundred room addition

at a cost exceeding three million dollars. With the completion of this new unit, this hotel, including land, buildings and equipment, will represent an investment approximating eight million dollars, and will provide for more than fifteen hundred guests.

The Ontra, at 1004 Wilson Avenue, Chicago's largest and most beautiful cafeteria, is within walking distance of many of Uptown Chicago's best hotels.

Miss Dutton, who herself resides at one of these homelike hotels, numbers among her patrons for breakfast, luncheon, or dinner, at the Wilson Avenue Ontra, many Uptown hotel guests.

U. S. BLAMED BY UNDERWOOD FOR ITS ALOOFNESS

Frankfort, Ky., Feb. 25. — United States Senator Oscar Underwood, native Kentuckian, and candidate for the Democratic nomination for President, today scored the American government "for failure to take part in European affairs and to bring about peace and prosperity," in addressing a joint session of the general assembly.

"The American boys did their part. They went over the top, and the German government was punished," he said. "Never again will a foreign government attack these great United States."

"The markets of the American government have been destroyed because of the instability of government in European markets. America is essentially an agricultural nation. The destruction of American markets was caused by the fact that when the time for America to play the part in the affairs of the world came, the government failed."

"The country that challenged the world paid the price of destruction, but our government failed to do its part after the war, and at present unrest and poor conditions are more prevalent in Europe than before the war."

REINSTATE CITY COUNSEL OUSTED ON GRAFT CHARGE

Mal A. B. Patterson, colored assistant corporation counsel, under suspension as the result of graft charges brought against him by south side cabinet owners, was ordered reinstated yesterday by Corporation Counsel F. X. Bush.

Investigation of the charges by a committee of the Chicago Bar association proved them baseless, Mr. Bush said. Patterson was accused of having accepted money to protect a cabaret for which the owner could not secure a license. The proprietor complained that Patterson's promises did not protect him from arrest.

REED WARS ON M'ADOO AS HE OPENS CAMPAIGN

Cites Legal Fees from Doherty and Morse.

(Continued from first page.)

pling board, to advance to the Morse company \$100,000, representing that it was necessary to have this money in order to prevent a receivership for the company.

"He evidently succeeded in convincing Judge Payne that the payment of this money was necessary, for on Sept. 4, 1919, Judge Payne wired: 'Have arranged to pay over \$100,000 to the Virginia company.'"

"The money paid was government money. Nevertheless, McAdoo charged and received for securing the \$100,000 to prevent bankruptcy a fee of \$25,000. 'I pause to inquire was he then engaged in ordinary legal service or in wheeling money out of the government? he had just asked.'"

Senator Reed said the McAdoo firm

take precautions

With colds and influenza all too common just now, it pays to take regular preventive measures against them. Spry your nose and throat night and morning with Zonite (directions on the bottle). Prevention is always easier, better and less expensive than a cure.

Zonite—the remarkable, new antiseptic—has the unique power of destroying germs without burning the delicate tissues that germs thrive on. It is several times as powerful as pure carbolic acid—yet non-irritating and absolutely non-poisonous. At your druggist.

Zonite
KILLS GERMS

also charged Morse a \$10,000 fee in connection with an appearance for the Groton Iron works before the shipping board, but said it was claimed that the fee was never paid.

It is a fact \$44,000 Tins.

"On Dec. 30, 1919, Morse, his sons, and William Guggenheim, constituting the board of directors of the United States Transport company, approved a contract to pay McAdoo's law firm \$1 a ton on 444,000 tons of coal contracted to be shipped to France.

"On Dec. 31, 1919, the transport company made a contract to pay McAdoo's firm 75 cents a ton on approximately 490,000 tons of coal to be shipped to the Italian government.

"The amount expected to be collected by McAdoo was \$144,000. "As a matter of fact, the coal actually shipped resulted an indebtedness to the McAdoo firm of \$165,712.54.

"But the Morse firm, of course, was crooked, and the lawyers only got \$33,304.45 in cash and some bad notes.

"Going along with these lucrative engagements was the employment by the moving picture people at an annual fee of \$100,000.

"The total of fees thus far discovered which McAdoo expected to realize was \$244,000.

"To this must be added the Doherty

fees of \$150,000. "Total, \$1,094,000. "For all this McAdoo did not appear in a single lawsuit. He was dealing for the most part in his domestic transactions with men who had been part of the administration when he was a member of the cabinet.

The Chicago Conference. "But McAdoo called his cohorts together in solemn conference at Chicago. He submitted to them, to their decision, the question: 'Am I an asset or a liability?' They declared he was washed as white as snow."

Pointing out that on Dec. 2, 1922, and Jan. 24, Doherty had testified in the oil inquiry of his dealings with Fall and as to the California naval reserve lease, Senator Reed said it was not until on Feb. 1, when he "was compelled to disclose the fact that he had employed Mr. McAdoo," that "Mr. McAdoo was seized by a spasm of virtue and resigned."

"The sole reason he quit," the senator concluded, "was because his employment had become known."

"Some of you may play poker. I state it merely upon information and belief that there is an old poker rule: 'Anybody caught cheating has got to quit the game.'"

"To this must be added the Doherty

A Reward

Awaits you in prettier teeth when you combat the film

Here is a test which brought to millions new beauty and new charm. The test is delightful, the result a revelation.

The benefits are whiter, cleaner, safer teeth. You will never go without them when you learn how much they mean. Ask us now for this new way of teeth cleaning.

That cloud is film

Teeth are clouded by a film— that vicious film you feel in all stages of formation. One removes it without harmful scouring.

Soon that film discolors, then forms dirty coats. That is how teeth lose luster.

Film also holds food substance which ferments and forms acid.

Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film comb which contains harsh grit.

It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Nearly all people, under old methods, suffered some film-caused trouble.

Now we fight film

Now you can fight that film. Dental science has discovered two effective methods. One disintegrates the film at all stages of formation. One removes it without harmful scouring.

These methods were proved by many careful tests. A new-type tooth paste has been created to apply them daily. The name is Pepsodent.

Dentists everywhere have urged it, until careful people of some 50 nations are employing it today.

Other new factors

Nature's great tooth protectors lie in saliva. One digests starch deposits on teeth, one neutralizes acids which attack the teeth.

Pepsodent
THE NEW-DAY DENTIFRICE

Based on modern research. Now advised by leading dentists the world over.

Emerald Glass Shade

Eye Insurance

You insure your life and property, why not your eyes?

Eyes behave better and last longer when working with a light that aids them. Glaring or misplaced lights hurt the eyes.

Daylight is the best working light because Nature made it right for eyes. That is why every Emeraldite has a special screen which changes ordinary electric light into soft, eye-saving daylight.

Better light means better eyes, also better work.

Emeraldites are these good-looking, practical lamps that you see in the best offices everywhere. They harmonize with and enhance the dignity of any environment. Emeraldites are the best eye insurance you can buy—also ideal for home use.

Genuine Emeraldites are branded and have the Daylite screen. Look for trade mark. It is your guarantee of satisfaction.

Model No. EMER-15" high, 18" wide, top desk.

Sale by other companies and electrical dealers. Write for illustrated booklet showing over 50 designs for desk, table, and wall lamps. Add 10¢ for mailing charges. Send to: E. M. Emeraldite Co., 1194 S. Wabash Ave., Chicago, Ill. 4.

Dull, Spotted Teeth Bleached White Quick—Safe Way

To whiten dull, yellowish, stained teeth all you need now do is brush teeth with a few drops of a mild, harmless liquid. This new method is called Bleachodont Combination. The liquid contains stains—the paste not only gently cleanses them, but prevents formation of new stains. No effect on enamel—no ingredients are intended to set teeth on fire. Bleachodont Combination is the formula of a group of dentists who used Bleachodont on their own teeth for four years with highly beneficial results before offering it to the public. Millions of teeth have been whitered in new, safe way. For the sake of your teeth and to avoid disappointment, beware of cheap imitations. Ask for Bleachodont Combination, the only treatment, and avoid cheap liquid which may do serious damage. At all drug stores, such as Public Drug Co., C. H. Porter, Bank & Baynes, General Commercial Drug Co., Walgreen & Co., and drug stores wherever this poster is read.

WIDOW ASS
U. S. FOR H
OBREGON R

Mrs. Brown, the writer
of this article, is a well
known resident of the
city of Mexico. She
has been married for
many years and has
a family of five children.
She is a devoted wife
and mother and has
been active in many
of the social and
educational work of
the city.

WIDOW ASSAILS U. S. FOR HELPING OBREGON REGIME

Mrs. Evans, the writer of the following article, is a well known resident of the large foreign colony in Mexico. She was born in Pennsylvania, was married a British citizen, and together they developed a large estate in the British colony during the past war. The Mexican government seized the property of many foreign citizens in Mexico, but at the same time the British government and their red flags from her

estate. Charles Becher Warren, non resident of Mexico, owned the British government to stop the seizure of her estate. In December, 1917, following the seizure of her estate, Mrs. Evans, the wife of the British general, Almon, died her estate, which included the British colony of Chapultepec, where President Obregon resided.

BY ROSALIE EVANS.

Mexico City, Feb. 18. (By mail to The Tribune.)—The cause of the present revolution in Mexico is twofold, and not, as stated by the department of state, merely rising from "animosity and bitterness growing out of the presidential campaign to elect a successor to President Coahuila." The first cause was recognition without sufficient guarantees for life or property, not only of American citizens, but of thousands of unfortunate Mexicans and foreigners, who, owing to their faith in the just enforcement of the Monroe Doctrine, have patiently

awaited the vindication of their claims when the United States recognizes Mexico. The second cause of the present revolution is that President Obregon has tried to force the United States to recognize his successor to the presidency. In his public as well as private speeches, General Obregon asserts that his greatest ambition is to establish a "bolshavist regime in Mexico." They know in the state department the most dangerous elements in that most dangerous organization, the I. W. W., are planning and plotting with the criminal elements, encouraged by Obregon and Calles, to establish bolshavism in Mexico.

Obregon's Nephew Gets Land. Companies are now going to pay 15 cents on the dollar for these bonds. A place neighboring mine, formerly belonging to a Spaniard, was seized and divided among the villagers ac-

cording to the law. Now, however, this land is in possession of Carlos Obregon, a nephew of the president, and General Obregon, a cousin of the present minister of war. They are peacefully working and taking the produce of the place, much as the former owner once did, supported by their powerful connections.

The second cause of the present revolution is that President Obregon has tried to force the United States to recognize his successor to the presidency. In his public as well as private speeches, General Obregon asserts that his greatest ambition is to establish a "bolshavist regime in Mexico." They know in the state department the most dangerous elements in that most dangerous organization, the I. W. W., are planning and plotting with the criminal elements, encouraged by Obregon and Calles, to establish bolshavism in Mexico.

ated at deputies of the opposition, the only casualty being a little child wounded on the street. Since then secret assassinations have horrified the country. On Jan. 31 two automobiles from different directions rushed upon Senator Field Jarama, who in the house has opposed the methods of the government. He fell riddled with bullets in broad daylight, in the most populated residential district of this capital, a few doors from where his wife was waiting for him.

The present president, Alvaro Obregon, rose in arms and overthrew the then president of the Mexican republic, Venustiano Carranza, four years ago. But article 32, clause 7, of the Mexican constitution says a citizen of Mexico is eligible for the presidency only if he shall not have taken part, directly or indirectly, in any uprising, riot, or military coup.

Arming the Reds. The department of state explains that the United States is selling arms in Mexico "for the purpose of discouraging warfare and supporting established law and order." Do they realize in selling arms to the Obregon government they are arming the I. W. W.'s not only of Mexico but from all over the world who have taken refuge here.

and this on the border of their own country? Even the newspapers disclosed on Jan. 15 "American arms and ammunition are being delivered into the hands of Calles' Mexican troops, who are wearing the red and black colors of bolshavism, according to the reports of eye witnesses from Piedras Negras."

HELD TO GRAND JURY. Arraigned on the complaint of four young women, who accused him of taking their handbags, John Cunningham of 7138 South Michigan avenue, was held to the grand jury in bond of \$5,000 by Judge Schwab yesterday.

Thanking the EDUCATORS of AMERICA

TWO years have gone by and again the Department of Superintendence of the National Education Association is holding its great annual convention in Chicago.

We greet them now as we did then. It is a great honor to the city to be host to this important body of educators. The influence of these meetings is vast. It reaches into every community and every home in the land.

Two years ago, the first sets of Compton's Pictured Encyclopedia, fresh from the presses, were exhibited at this convention. An anxious time for us, who had spent five years and \$450,000 in making these books.

For they were entirely new, entirely different from any books that had ever been written before anywhere under the sun. A readable, enjoyable, intimate, personal encyclopedia—and yet a true encyclopedia, giving complete, accurate information in convenient, alphabetical form. A brand new venture in the field of education. We awaited the verdict of educators in fear and trembling—we confess it now.

It was not long in coming, and when it came, it was enthusiastic confirmation of our highest hopes. The schools received Compton's Pictured Encyclopedia in a spirit of eager, grateful appreciation. The onward

march of education had created a need for books like ours, and our books filled that need. Today Compton's is at work in thousands of schools all over the land.

From the schools, Compton's sped swiftly to the homes, teachers and superintendents earnestly advising parents to give their children the advantage of unlimited access to this rich and tempting store of knowledge.

Then came Europe demanding Compton's Pictured Encyclopedia. Cassell & Company of London, one of the greatest publishing houses in the world, obtained the English publication rights, and they report that sales throughout the United Kingdom have already more than tripled their most optimistic expectations. England, for centuries the maker of encyclopedias for the whole world, has at last turned to an American encyclopedia.

Negotiations for an Italian translation have gone so far that Mr. F. E. Compton, president of our company, sailed last week to close with the publishers in Rome.

Sweden, France and Spain have also demanded Compton translations, and it is now evident that within a few years the whole world will be using this new and different American encyclopedia.

In view of this wonderful success that two short years have brought, we are not likely to forget the fine, generous spirit of the Educators of America, who have enabled us to share so largely in their great effort to popularize and humanize knowledge.

TO OUR VISITORS OF THE WEEK—We extend a most cordial invitation to visit our convention headquarters, Rooms 1110-1112 Congress Hotel; and the home offices of our company at 58 E. Washington St.

F. E. COMPTON & COMPANY

Sure Way to Get Rid of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. Then you destroy it. To do this, just get about four ounces of plain, ordinary Liquid Arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most, if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be lustrous, glossy, silky and soft.

THE E. L. WATKINS CO., CLEVELAND, O.

STATE WITNESS IS PRODUCED BY FAHERTY COUNSEL

BY PHILIP KINSLEY.

The Faherty-Detweiler larceny trial, resumed yesterday before Judge Wells M. Cook, seems to resolve itself into this question: "Yes, we did it—what of it?"

But it only seems so. In reality the defense attorneys, Clarence Darrow and F. H. O'Donnell, are watching every move of Special Prosecutor James J. Barbour as a cat might watch a mouse hole. And Mr. Barbour is building, through infinite technical details, a case which may be dangerous. He may emerge through as unlooked for door.

Long ago, in his sophomore days, Mr. Darrow began asking the question: "What of it?" concerning problems which seem real to less enlightened minds. He is still asking it, shrugging his shoulders and snapping his suspenders in the face of jurors.

"Well, there is just this about it," said Senator Barbour at one stage of the trial yesterday, after hours had been spent in winding through a forest of figures.

"I have shown by this witness that the city of Chicago did \$4,988 worth of paving for the White Paving company when the company was able to do the job and that the White company got paid for this paving that the city did."

The witness in question was Joseph A. Moore, division engineer for the board of local improvements for many years.

Certified Bill for "Extras."

He testified that certain pieces of paving work in the Michigan avenue improvement were done by the city, one job of 810 square yards and one of 1,218. What this amounts to remains to be seen.

Mr. Moore also said he had certified a bill for "extras" to the Great Lakes Dredge and Dock company in two accounts totaling \$181,000. This was for extra material on the approaches to the bridge, he said, ordered by the board in orders to finish high job by May 15, 1920. The extra work was not called for in the contract, he said, and the job would have been finished normally without this extra work. He could not say how long it would have taken.

In demonstration of their announced fairness attitude toward the outcome of this case, the defense attorneys yesterday produced a witness for the state. This was Frank J. Roach, former chief auditor for the board of local improvements.

Want Only the Truth.

"Some suggestions have been made here that this man was sent away of was being kept away," said Mr. O'Donnell to the court. "We have brought him back from Miami and the state may put him on the stand at any time. The truth is all we want."

David W. Clark, a member of the board during the Thompson administration, was questioned concerning the board order giving \$28,000 extra to the White Paving company.

"Had you anything to do with negotiating that extra payment?" he was asked.

"Not to my knowledge."

"Did you have anything to do with passing the order?"

"The first I knew of it was when it was questioned by the grand jury."

He Can't Remember Extras.

He had no recollection concerning

another \$10,000 extra item. Likewise, the \$100,000 extra to the Great Lakes company. These matters, he said, were all under the control of Michael J. Faherty. Mr. Clark was concerned with sidewalks only. Previous testimony was that he had made the motion on which the board passed the \$225,000 extra.

Joseph McGillen, division engineer for the board, was on the witness stand for three hours. The disputed certificate SI, which shows erasures, alterations, and extras, was prepared, he said, at Faherty's order.

"Mr. Roach told me," he said, "that Faherty said to put on 15,000 yards at \$1.75 a yard. I went to Mr. Faherty and asked him about it, and he said it was all right, to put it on as the board had decided it."

the signatories of the Washington conference treaty wherein Italy made reservations.

Owing to these reservations the league of nations will be asked to intervene, but the delivery has been virtually completed. It is stated in well informed circles that the deal certainly was made with the connivance of the Italian legation here, with huge personal profits for officials reported.

The Tribune also learns that a shipment from Holland is now en route in a Mexican ship to a Manchurian port. The arms, which are said to be for Chang Tso-lin, consist of 40,000 rifles, a proportionate amount of ammunition and several batteries of field artillery. All are of German make.

GERMANY, ITALY EXPLOIT CHINA FOR NEW WAR

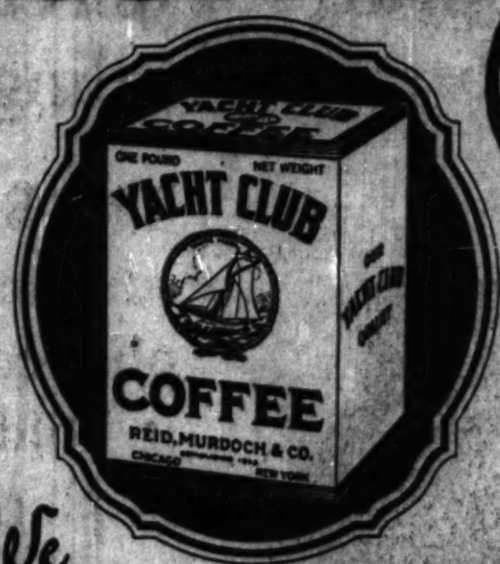

(Chicago Tribune Feature News Service.)

PEKING, Feb. 25.—The transportation has been completed of seventy-one carloads of munitions to an arsenal fourteen miles west of Peking, where they will remain under the guard of Italian marines until the balance of the purchase price, \$5,500,000, is paid by the Chinese party.

The munitions shipped here consist of 175,000 rifles, a proportionate amount of ammunition and several batteries of field artillery. All are of German make.

ASK THE MAN WHO OWNS ONE

Packard Six 5-Passenger Sedan

AS SUBSTANTIATED BY
DR. PAUL B. MAGNUSON, WHO WRITES:

Dear Sirs:

... of the 17 cars I have owned, the Packard is the most expensive as to first cost, but from the standpoint of upkeep, it costs less to run than any car I have ever owned.

Packard service is better than any automobile service with which I have come in contact. Personally, I like to pay for things when I get them and when I understand what they are for.

We are all open to reason, I think, but it is hard to understand reasons for things after one has forgotten the details of the deal, as he surely does when 30 days have gone by after some repairs have been made to his automobile. Your service department is the only one I know of that is run on a reasonable, business-like and prompt basis.

Very truly yours,

(Signed) PAUL B. MAGNUSON

30 N. Michigan Ave., Chicago

You will have less repairs when your car is a Packard Six. That is one point in which Packard is so much more economical than cars made to sell for hundreds of dollars less. And on those occasions when your Packard does require mechanical attention, Packard standardized service means a real saving.

Packard Motor Car Company of Chicago

Michigan Avenue at Twenty-fourth Street

Milwaukee Branch: Grand Ave. at 35th St. Evanston Branch: 1629 Orrington Ave.

PACKARD SIX

Deferred Payment Plan

The Packard plan of deferred payments makes possible the economical purchase of a Packard car out of monthly income instead of capital. It is financially sound, simple and convenient.

Fair Value for Used Cars

Our trade-in policy is fair to all concerned. We allow what the used car is actually worth. A fair list price and a fair used-car price make it unnecessary to dicker.

Guard Against 'Flu' With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches get busy with good old Musterole. Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister. Just rub it on with your finger tips. First you feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief. Have Musterole handy for emergency use. It may prevent serious illness. To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole. 5c and 10c, in jars and tubes.

Better than a mustard plaster.

A Clear Complexion

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription of a few well known vegetable ingredients mixed with olive oil, usually Dr. Edwards' Olive Tablets. You will know them by their olive color. These tablets are wonder workers on the liver and bowels, which cause so much trouble, carrying off the waste and poisonous matter in each system. If you have a pale face, yellowish, dull eyes, pimples, coated tongue, which is bitter, no good feeling, a lot of gas, inactive bowels, you take one of Dr. Edwards' Olive Tablets daily for a time and note the pleasing results. Thousands of women had seen Dr. Edwards' Olive Tablets and were so successful, especially for constipation, that they just to keep them at hand.

Dr. Edwards' Olive Tablets

AMAIZO OIL

The Perfect Oil

For Frying—For Shortening
For Mayonnaise

Your Grocer

The Best Support in the World FOR A RUPTURE *Is The Human Hand*

The WORST Support Ever Devised Is a Hard, Unyielding Knob, or Pad, Pressed Into the Rupture by a Steel Spring—Thereby Preventing Nature From EVER Having a Chance to Bring About a Healing of the Parts.

The Brooks Appliance most closely resembles the human hand as a rupture support. You will notice the first moment you put on a Brooks Appliance, the pliable, fleshlike touch of the velvet finished rubber and it will take only this first experience of comfort and security to make you decide—"This is what I want."

For the benefit of our readers we take pleasure in publishing the Brooks offer to save all who are ruptured from wearing painful makeshift trusses that do not cure.

No man or woman ever can look and feel his or her best while suffering the torment, pain and discomfort of rupture.

Every day that you suffer from rupture—every hour of truss torture that you endure—after you read this page is **your own fault.**

For many years we have been telling you that no makeshift truss will ever help you. We have told you about the harm ill-fitting trusses are doing. We have told you that the only truly comfortable, sanitary and scientific device for holding rupture is the Brooks Rupture Appliance.

Now we offer to prove it to you, entirely at our risk. We will send you a Brooks Rupture Appliance **on trial.** If you really want to be rid of your rupture fill out the coupon below and mail it today.

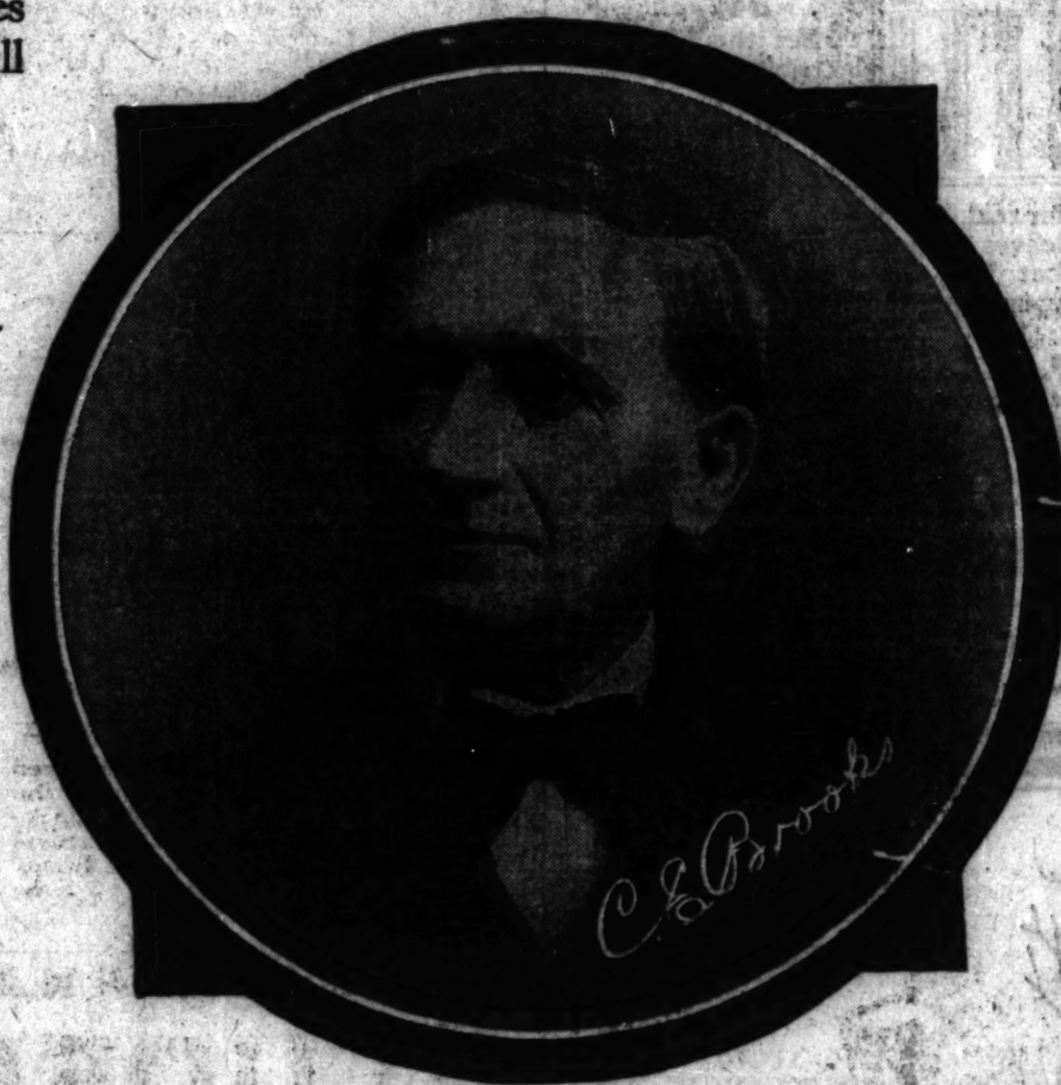

Instead of wearing a steel spring or inflexible harness, try the **velvet-soft Brooks Appliance.**

Instead of the old hard or stuffed pad, use the **soft automatic rubber air-cushion** of a Brooks Appliance.

The Brooks Appliance clings to you without force and you are hardly conscious of its presence. But above all else, it **HOLDS** always.

Within an hour after you receive the Brooks Appliance, if you take advantage of this remarkable trial offer, you will throw away your truss.

Many hundreds of physicians and surgeons recommend the Brooks Appliance and condemn makeshift trusses as more harmful and danger-

Mr. C. E. Brooks, inventor of the Appliance. Mr. Brooks cured himself of rupture over 20 years ago and patented the Appliance from his personal experience. If ruptured, write TODAY to the Brooks Appliance Company, Marshall, Michigan. Write as full a description of your case as you wish, and ask all the questions you care to ask. Having handled hundreds of thousands of cases by mail, we know just what is required and can advise you better than many so-called "fitters" whose experience has been limited to a few local cases. Look for trade mark signature of C. E. Brooks and his picture on every appliance. None other genuine. We have no agent or dealer in Chicago.

ous than any other method of retaining and treating rupture. Thousands of people have written us testifying to the amazing results they have secured from this great invention. Many of these people live right in your vicinity and we will be glad to send you copies of their thankful letters if you will ask for them when you write.

Men, Women and Children Find the Brooks Appliance Equally Effective

No matter if your rupture is old and severe or only recently developed, no matter if you are young or old, you should not fail to profit by this **No-Risk Trial Offer.**

No other rupture support, truss, lock, device, pad or plaster is offered to the public under so broad a guarantee of satisfaction.

Over 1,010,000 People Have Accepted This Offer. Why Not You?

Doesn't that prove that the Brooks Appliance is not an experiment but a positive success—that it does all we claim for it? Among these 1,010,000 men, women and children there must be **hundreds whose condition was identical with yours.** Can you afford not to investigate and satisfy yourself when it costs you nothing to prove what the Brooks Appliance will do for you?

This wonderful device is a triumph of scientific and mechanical genius, the outcome of more than 30 years' experience and the results accomplished by its use are little short of miraculous.

When you try a Brooks Appliance you will notice instantly how very much this support resembles the touch and clinging pressure of the human hand.

Send the coupon **NOW** for further description of the Appliance and for our **FREE, NO RISK, TRIAL PLAN.**

The Brooks Appliance Co. gladly sends their remarkable patented Appliance **ON TRIAL** to prove that it holds the rupture back, keeps it in place, prevents its coming down or slipping out and finally assists nature to heal up the rupture.

Ten Reasons Why You Should Accept This Offer

1. It is absolutely the only Appliance embodying the principles that inventors have sought after for years.
2. The Appliance for retaining the rupture cannot be thrown out of position.
3. Being an air cushion of soft rubber it clings closely to the body, yet never blisters or causes irritation.
4. Unlike ordinary so-called pads, it is not cumbersome or ungainly.
5. It is small, soft and pliable, and positively cannot be detected through the clothing.
6. The soft, pliable bands do not give the unpleasant sensation of wearing a harness.
7. Nothing to get foul; it can be washed without any injury.
8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh.
9. All materials are the very best that money can buy, making it a durable and safe Appliance to wear.
10. We **guarantee your comfort** at all times and in all positions, and sell every appliance with this positive understanding.

The Brooks Appliance Has Freed Thousands of Men, Women and Children From Rupture—Without Pain, Operation, or Loss of Time.

BRITAIN SLASHES REPARATION LEVY ON GERMAN GOODS

Abandons Tax Fixed by Versailles Treaty.

BY PAUL WILLIAMS.
(Chicago Tribune Foreign News Service.)
(Copyright, 1924, By The Chicago Tribune.)
LONDON, Feb. 25.—(Tribune Radio.)—An important change in the relations between Germany and England was announced in parliament this afternoon by William Graham, financial secretary of the treasury, who said the British government agreed from midnight tonight to reduce the reparations levy on all goods exported from Germany under the Versailles treaty. The treaty, which imposed a levy of 10 percent on the value of goods exported from Germany to Britain, was to be replaced by a new system of levies on goods imported from Germany into Britain. The new system, which will be in effect from midnight tonight, will impose a levy of 10 percent on the value of goods imported from Germany into Britain. The new system will be in effect from midnight tonight.

Will Return German Property.
The Tribune is also informed that after many conferences with representatives of the German government, which agreed not to pass the charge in the future to the British importers and to reimburse its own exporters with gold bonds, Germany agrees to make it a punishable offense for a German exporter to charge any part of the levy to a British importer.

British Urge German Arms Quits.
(Chicago Tribune Foreign News Service.)
PARIS, Feb. 25.—The British government tonight handed a note to the French foreign office requesting that the problem of the resumption of the military control commission in Germany be referred to the council of ambassadors and immediately examined. The note proposed an effective resumption of Gen. Nollet's organization immediately for an inspection of the armaments, munitions works, and barracks in Germany.

The sudden, abrupt about face of the British attitude is believed to have been caused by Foreign Minister Stresemann's demand in his speech at Dresden Saturday for the return of Germany's colonies, most of which the British grabbed.
It is also believed that Prime Minister MacDonald seeks an agreement with Premier Poincaré and wishes to tackle the easiest problems first.

POINCARÉ TRIES TO CURRY FAVOR FOR DAWES PLAN

Thinks Germany Will Reject Scheme.

(Chicago Tribune Foreign News Service.)
PARIS, Feb. 25.—(Tribune Radio.)—Theoretically, France will accept the recommendations of the experts committee headed by Brig. Gen. Charles G. Dawes of Chicago and Owen D. Young of New York.
The Tribune has been informed

that M. Poincaré, the French delegate on the Dawes committee, has been instructed not to oppose or combat the proposals which the rest of the committee favor adopting. He will merely seek to ameliorate as much as possible certain measures for lessening French interests in the occupied regions which France considers as necessary for her security.
The Poincaré cabinet, which is seeking to maneuver public opinion into accepting the experts' findings although they constitute repudiation of the whole Ruhr policy, is seriously embarrassed by articles in the leading Paris newspapers.
French political writers demand that the government refuse to abandon its economic grip on the Ruhr, the one

barrier cutting off the rest of Germany from occupied territory, or control of the railways in the Rhine-land.

The French decision to abandon active opposition to such of the experts' proposals as conflict with the Poincaré policy is due to a realization that a deadlock in the committee would result in the publication of the report of the majority of the experts, leaving France alone and isolated.

Secretly the French do not believe Germany will accept the series of financial and economic control provisions which the experts contemplate as they would reduce the nation to a state of vassalage and entail a loss of sovereignty comparable to that of Austria and China.

Society Leaders Tell What JACK SPRAT Means to Them

They find slenderness in this happy way

SOCIETY leaders realize how important it is to keep the figure always supple, slender and youthful. They find Jack Sprat the easy way to take off excess weight.

One well-known club-woman recently served Jack Sprat at a luncheon to a select group of friends; then she learned, to her surprise, that half of her guests had already discovered and were loyal users of Jack Sprat themselves.

Simply by eating Jack Sprat regularly—three loaves a week—you, too, can win back the slenderness and graceful lines of girlhood.

What Is Jack Sprat?

White bread is 75% starch—and, health authorities agree, starch makes fat! Jack Sprat is unusually low in starch content, but rich in proteins, vitamins and mineral salts as provided by nature. It brings increased vitality and full nourishment as it removes excess weight.

Eat 3 Loaves a Week

Get the happy habit—eat Jack Sprat in place of white breads, rolls and similar fattening foods for real, lasting benefit. Eat three loaves of Jack Sprat each week. Let Jack Sprat supply the bulk your appetite desires.

No home can be comfortable without effective insulation

Thousands of test cases prove it

Every now and then we make a great step forward in home comfort and economy. Thus the furnace and oil burner replaced the old fire-places and stoves.

Now comes a still greater step—proper insulation of house walls and roofs to prevent heat transmission. No home can be said to be modern without this great improvement. Insulation not only means greater comfort. It means millions of dollars saved through fuel economy.

First duty of a house—to protect against heat and cold

Your house probably allows at least a third of the heat you pay for in your furnace to be wasted, unless its walls and roof are insulated with Flax-li-num. This material is a felt-like substance, made solely from flax fibres. It is fibrous and tough.

Flax-li-num is built into walls and roofs, forming a

thermos bottle insulation against heat transmission. It keeps your house warm in winter and cool in summer. While Flax-li-num must go into the walls as the house goes up, it is easily applied to the roofs of old houses. Its cost is so small that lower fuel bills repay it in two or three years—sometimes less.

Flax-li-num is not an experiment. For over twelve years it has been used in the coldest part of the United States, with great satisfaction to home owners. Likewise, in southern sections it has made homes comfortably cool in hot weather.

If you buy or rent—ask for Flax-li-num

Unless you live in an insulated home you and your family are not enjoying the comfort and economy to which you are entitled. There are houses near you for rent or for sale lined with this good material. Lower fuel bills save enough so that it actually costs you less to live in one of them. Ask about Flax-li-num when you rent or buy.

If you are going to build, call, write, or phone for a free copy of our instructive booklet, "For Comfort and Economy", which contains a sample of Flax-li-num. We'll gladly give you advice, too on the cost of Flax-li-num in your home and the methods of application. Or we can put you in touch with real estate men who have Flax-li-num insulated houses for sale or rent.

Flax-li-num

A NECESSITY IN THE CONSTRUCTION OF A MODERN HOME

This Age of Oil

Speaking editorially, the Chicago Tribune, in its issue of February 3, says:

"Virtually every one in the nation is a user of oil and consumption grows at a rapid pace. We have a problem, therefore, not merely of conservation but of supply, and its solution is vital to the material prosperity and progress of the United States."

This able statement seems to us to justify further comment.

"Virtually every one in the nation is a user of oil"—oil in some form enters into the manufacture of every article of commerce. Without it the commodities you use could not be manufactured and sold for the price you pay now.

"Consumption grows at a rapid pace"—to illuminate this statement it is only necessary to show that in the ten states served by the Standard Oil Company (Indiana) there were, on January 1, 1924, 4,855,739 automotive vehicles registered. This is 807,367 more than were registered on January 1, 1923.

"Conservation"—it is a well-known fact that the Standard Oil Company (Indiana) by means of processes discovered and developed in its own laboratories has contributed more to increasing the yield of gasoline from a given quantity of crude than any other refiner. This increased yield was secured without in any way affecting the quality of the gasoline and without touching that portion of the crude which goes into the manufacture of lubricating oils.

"Vital to the material prosperity and progress of the United States"—comment here seems unnecessary as all must recognize the part played by petroleum in "This Age of Oil."

The Standard Oil Company (Indiana) has achieved its signal success in "This Age of Oil" by practicing the principles of fairness, equity and justice.

The Standard Oil Company (Indiana) is proud of its position as a leader in the petroleum industry—it is proud of its success—it is proud that the service it has rendered has gained the respect, confidence and esteem of the thirty million people of the Middle West.

DEPENDABLE WOMEN want a dependable paper. Therefore THE TRIBUNE at the start of every day.

Tribune Want Ads Best to Sell Fords

Just as they excel in other fields, Tribune Want Ads are leaders in selling cars, and are unequalled for the ease with which they find buyers for used Fords.

The Uptown Motors Co., 4811 Broadway, find their prospects with Tribune Want Ads. This one was published February 10:

FORD COUPE, 1922.
With optional new dash, for radio or what?
MR. VALENTINE, Milwaukee 0199.

"We sold the Ford." is their report. "The first Tribune Want Ad brought about ten prospects, and there was a buyer among them."

If you are hunting a buyer for your Ford, you can sell it most quickly, and therefore most economically, with Tribune Want Ads. Bring your Ad to

The Want Ad Store

DEVER'S ECONOMY PROGRAM FOULS ON COUNCIL SNAG

Mayor Dever's economy program for the city government during 1934 wobbled yesterday when the council, the estimated revenue for the year, was under a microscope by the council finance committee's expert.

Whether it can be saved from collapse, depends on the "estimated data" of the city's revenue. It would undertake consideration of the \$46,936,555 expenditures contemplated in the budget estimates. Exclusion of doubtful items in the estimated revenue as well as the assurance that "rigid economy" in departmental affairs during 1934, accounted for much of the \$1,525,593 surplus in the city's treasury, was questioned by the committee's staff and criticized by the committee members.

Controller M. J. O'Brien's statement to the council that "Mayor Dever's insistence that economy be practiced in every city department produced savings from 1932 appropriations aggregating \$1,525,573" was questioned.

As a matter of fact, the city's surplus is really a combination, the committee's experts found, of so-called "windfalls." One is the \$942,641 surplus left by the previous administration, another is \$215,245 received by the city for cleaning the rights of way of the surface lines, and a third, \$130,122, delinquent taxes collected.

Among the doubtful items which are included in the estimated revenue total of \$24,100,000 from miscellaneous sources, the committee staff directed special attention to \$1,100,000 which the city hopes to get from taxes to be levied on state insurance companies, as ordered by the Illinois Supreme court.

"It is clearly evident from a report by the corporation counsel to the mayor that revenue from this tax will not be available until after further litigation, and its availability for appropriation during 1934 is highly problematical," decided the staff in yesterday's report.

Licenses May Slump.
In fixing the city's probable resources during 1934, the administration estimated revenue from licenses at \$3,100,914. This, notwithstanding re-

cent court decisions, corporation counsel's opinions, revocation of licenses, and the repeal of licenses affecting retail beverage dealers, coffee houses, factories or workshops, wearing apparel shops, auto accessories shops, and jewelers, who paid the city a total of nearly \$800,000 in 1933.

For more than five years the revenue received as a result of the vacation of streets or alleys has been about \$215,000 annually, the staff points out. Yet, the administration is figuring on a total of \$414,344.88 during the current year. "It is unlikely," the staff says.

Study of Corporation Counsel F. X. Busch's estimate of his department's needs indicates that Mrs. Josephine Busch, widow of the late mayor, is to be ousted from the \$4,000 position established for her during the Harrison regime. She is to be replaced by a "law clerk, collection department," at \$2,400 a year.

It was also noted that the administration's program includes the abolition of the position of fire department superintendent of construction, now held by Harry Leser, a veteran of forty-seven years' service. Another place, chief of fire alarm wires, held by Michael Hanley, thirty years in the service, is suggested for discontinuance.

"I have gone through the estimated budget and find it very unscientific," declared Ald. J. S. Clark (30th) during yesterday's committee meeting. "I don't believe in all of the recommendations," said Ald. E. J. Kahld (34th). "Let them tell us how they arrived at all these figures."

"If the committee is unable to find the reasons for the recommendations, it should appeal to the mayor," declared Ald. U. S. Schwartz (4th).

"I'm ashamed of my hands"
HOW often you hear it said. Perhaps you have said it today. Roughchopped hands and faces are not ornamental—nor comfortable.

Well, why have them? Haven't you a tube of Unguentine in your medicine cabinet? That's the "friend in need" you should think of first for irritated or injured conditions of the skin.

Chapped skin is cut skin—just a mass of tiny cracks and cuts. Such a condition cannot be quickly healed by beauty creams and lotions. More scientific treatment is necessary. Unguentine provides it—a true healing ointment.

For all common skin injuries or irritations ("Unguentine—quick") "This 'friend in need' stops the pain—prevents infection—heals quickly—seldom leaves a scar."

To keep a tube on hand is wisdom. Get a tube today at your druggist's—50c.

ZINOVIEFF ROARS AS REDS YIELD TO TROTSKY DEMAND

BY JOHN CLAYTON.

(Chicago Tribune Foreign News Service.)

BERLIN, Feb. 25.—Leon Trotsky, erstwhile Russian minister of war, has won his fight with the Communists over Red army arrests. Telegraphic news received from Moscow today reports that his second ultimatum has been accepted by the central executive committee.

Over the protests of M. M. Zinovieff, Stalina, and Kamenev the committee adopted this resolution: "Taking into consideration the second warning of the latest uprisings in the Red army in Siberia, the Ukraine, and elsewhere, and of strikes of a political character in industrial centers, the committee resolves to cease all prosecutions against high officials of the Red army."

Zinovieff Roars.
When the resolution was passed M. Zinovieff, who is president of the third international, as well as a member of the executive committee, leaped to his feet and cried: "Not in Petrograd!" He defied the central committee to put a stop to the arrests there.

The conflict between Karl Radek and M. Zinovieff has led to a prohibition of any speeches by Radek while he is in Russia. A specially appointed committee will investigate his attitude and his motives for joining the opposition. Radek is a close friend of M. Trotsky and has been supporting the army leader in all his measures.

All Red army conferences of political commissaries and others have been forbidden following the uprisings. A small group of troops under an official who resigned from the Communist party in 1923, captured the Siberian town of Biagovichi and held it for fifteen days before being turned out by a Tartar regiment. Their slogan was "We demand democracy, release of Trotsky, and freedom of the press."

Reveries See Disorder.
Mrs. Theodore Roosevelt and Kermit Roosevelt, with Mr. Donald, the Peeking correspondent of the Manchester Guardian, arrived in Berlin this afternoon on route from Peking, China.

The party spent only one day in Berlin. Mrs. Roosevelt will visit her son's grave in France and then will proceed to Nice. She will sail for America from Naples next month. Kermit is going to London and then to New York.

The party found travel conditions across Russia good.

The Americans found Moscow almost hysterical as a result of the wholesale arrests of members of the opposition, which are still going on.

Parley with Roumania.
VIENNA, Feb. 25.—A Russo-Roumanian conference will open at Vienna on March 4. The Tribune learned today, Adolph Joffe, who made peace with Poland, Latvia, and Estonia, is in a Vienna sanatorium at present. It is expected that he will be named leader of the Russian delegation.

Yellow Cab Service

Anybody who has the price can buy a cab and go into the cab business. A number of "anybodies" can each buy a cab, band themselves together and call themselves "a cab company."

But when you ask to see the "responsibility" that is back of them, you can't find it, because there isn't any. If you have a claim for damages against them, you will find that they are judgment proof. So, if you ride with them, you take all the chances.

When you ride in a YELLOW CAB, you have behind you the moral, organized and financial responsibility of the greatest cab company in the world—the company which has revolutionized the cab industry, not only in this country, but in Europe.

Some of the best known business and professional men in Chicago own and operate YELLOW CAB. The moral and financial responsibility is clearly reflected in the character, integrity and wealth of these men. They do not come in direct contact with you, but they pick the men who do. And they pick the kind of men that you would choose yourself. They won't let any man drive you until he has proved his worthiness.

Out of the moral and financial responsibility comes the organized responsibility and the practical system of operation which gives you the matchless service you have learned to depend on—the system which keeps the service up to the highest notch and the rates down to the lowest point possible.

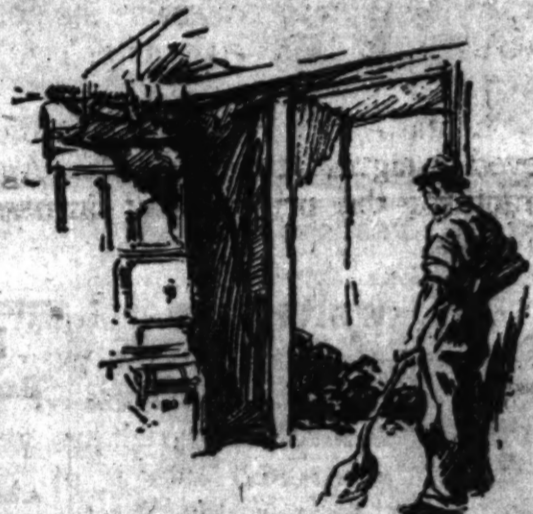

YELLOW CAB has established 127 stations, or waiting rooms, throughout the city where the public is protected in bad weather. Each is equipped with our private telephone system and has a uniformed starter.

The thinking fellow calls a Yellow

Yellow Cab Co.

CLEAN HEAT

If your fuel bin is low buy Chicago Solvay Coke

We all like to try things out. Right now you'll be taking no chance if you order two or three tons of Chicago Solvay Coke and give it a trial. You'll learn its good points and will, we are sure, order your bins filled for the rest of the winter.

You'll see how clean it is—dustless, smokeless, sootless. You'll find how well it keeps fire. How little waste, how few ashes. You'll prove to yourself that ton for ton it gives more heat and burns more evenly than anthracite and is cheaper per ton.

Fuel merchants of Chicago and suburbs can furnish this fuel. Order by name and see that your delivery slips call for Chicago Solvay Coke, not simply coke. If you wish, we'll gladly send a man to show you how easy it is to heat your home with Chicago Solvay Coke. We will send upon request a booklet—"The Fuel Without a Fault"—that will tell you why Chicago-Solvay Coke is the best buy you can make in the fuel line.

Don't be Constipated

You can break this habit in 5 days

NO CHARGE unless you get results. We give written guarantee with every bottle. Test McKenzie's; you risk nothing.

WHENEVER you see vigorous, healthy people you can be sure they are free from constipation, the deadly habit of civilization that causes 75% of all sickness.

Lack of exercise and overeating are the chief causes of faulty elimination. Unless this habit is broken waste poisons are generated which undermine the system and destroy health. Now science offers a new weapon to conquer constipation.

Make this simple 5-day test
McKenzie's Anticongestive Mineral Oil will break the constipation habit in

5 days or it costs you nothing. Here is a new and better mineral oil that lubricates the intestines and overcomes constipation naturally without forming a habit. Get a bottle at your druggist's today. Follow directions. Unless constipation habit is broken in 5 days or less we return your money.

Your druggist signs guarantee
With every bottle of McKenzie's we enclose a guarantee slip, which your druggist signs. You do not risk one penny. When you buy McKenzie's ask the druggist to sign our guarantee. If you are not satisfied after 5 days, we refund your money. Experience shows that a few bottles usually insure regular habits for all time. You owe it to yourself to make this test.

BRUNDAGE SLAPS BACK AT JUDGE WHO TRIED SMALL

Names Bailiff on State's Pay Roll During Trial.

BY PARKE BROWN.

Circuit Judge Claire C. Edwards of Waukegan, who presided at the conspiracy trial of Gov. Len Small, drew a speedy and heated reply from Attorney General Brundage yesterday when he criticized a speech of the head of the state law department recently made at Merik, Ill.

The judge indicted himself into the long pending controversy by denying Brundage's charge that one of the bailiffs in charge of the Small trial was on the state pay roll during the trial. To this Brundage replied with a letter to Judge Edwards naming the bailiff and disclosing some hitherto unpublished angles of the case.

"Not for one moment," Judge Edwards had said, "did a man on the state pay roll have anything to do with that jury, and this was well known to the attorney general."

"I said at Merik," read the attorney general's letter, "that at the conclusion of the state's case, no evidence was introduced by the governor in rebuttal, and that he refrained from taking the witness stand, as most any man falsely accused would have done, because there was apparently full reliance placed on that jury."

Eight Jurors Go on Pay Roll.

"I did say that there seemed to be a great sense of obligation on the part of Len Small to this jury, inasmuch as eight of them were immediately put on the state pay roll."

"I further said that the sheriff who summoned the jury was made superintendent of jails (prisons). Now I repeat for your benefit that Homer J. Cooke drew money as game warden

during April, May, and June while Len Small was being tried in your court and for part of which time Cooke was bailiff in charge of the jury.

"I furthermore repeat, upon the authority of the men who tried the case for the people, that they made objection to two bailiffs, both of whom were dismissed after they had been with the jury for some time. One was Cooke."

Cites Brother's Case.

"I have refrained from casting aspersions upon the court in a judicial

capacity, but since you have taken a personal issue with certain facts I ask if it is not true that your brother, a farmer residing at Gray's Lake, was placed upon the pay roll of the corporation counsel of the city of Chicago directly after the Small case was transferred to Lake county and that this brother came periodically to Chicago, and, without any work being assigned to him or rendering any service to the municipality, drew regularly \$75 per week as a presumed salary?"

"It is also a fact, is it not, that an

other brother furnished in your court a cash bond of \$5,000 for Eddie Kanfman when he was finally apprehended and brought to Waukegan to answer an indictment for jury fixing?"

"I will not concede even to you a greater respect for the dignity of the court, and that is why, you will recall, that before the trial began, for reasons which were stated to you, I suggested that you ought not to preside."

"If these facts are not true, will you please advise the bar of Illinois to whom your previous communication was addressed?"

It isn't Just Luck

—when you see a pan of piping hot biscuits taken from the oven—biscuits that have raised "way up high"—baked nice and brown. Luck didn't do it. The use of pure and dependable ingredients, such as

The Biggest State Fair in the United States

It never closes—this exposition. It lasts from January 1 to December 31 . . . and then begins all over again. There are more than 4,600,000 people in attendance at all times. . . . And that number does not include the people from outside the "state" who are attracted to this great gathering. It's a remarkable spectacle, with interesting exhibits of live-stock and agricultural products, and manufactured goods. But most important of all is the buying activity at this fair. Everything is sold here. These millions of people spent \$18,504,290,000 in 1923. St. Louis alone spent \$8,038,594,000—or more than either Cleveland or Detroit. The purchases ranged from automobiles to shoe-laces, from furnaces to pencils, from encyclopedias to chewing gum. And these buyers are buying all the time.

The State Fair of The 49th State

Step inside for a moment, and see some of the activity. Here's the Wheat display. . . . A big one, too, for The 49th State ranks second in the United States in wheat-production. Here's the Corn exhibit. . . . The 49th State ranks third as a corn producer. Here's the Manufacturing exhibit. . . . The 49th State's manufactured output totals \$1,992,467,000 in value. St. Louis, capital of The 49th State, is represented with an exhibit of stoves, and shoes, and refrigerators, and chemicals, and hats, and grocery items, and dry goods—and scores of other commodities which make this city famous as a leading producer. Madison, Illinois, exhibits her steel products and asphalt. Troy, Missouri, has a booth filled with eggs and poultry. Boonville, Missouri, shows pipes and shoes. Alton, Ill., has an interesting display of glass and cartridges. St. Charles, Missouri, displays the railroad cars which are built by her people. Mexico, Missouri, is represented by some of the world's finest middle-horses.

Apples and cotton come from counties in Arkansas; tobacco from Kentucky. De Soto, Missouri, is exhibiting shoes and overalls. Collinsville, Illinois, has an exhibit of her textile products, and another showing coal production. Marion, Illinois, is another town with a coal display. Belleville, Illinois, is exhibiting coal, shoes and hosiery. Fulton, Missouri, displays fire-brick. East St. Louis shows the activities at her mammoth stock yards, and also displays aluminum ware, roofing material, stock feeds and flour. . . . And so on and so on. A busy scene. Just think what a compact, unified district is represented at The 49th State Fair. And all these people are gathered here with money to spend. They are spending it now. A wealthy market place.

For those who want to sell their wares at The 49th State Fair the gates are wide open. Concession privileges are inexpensive. Advertising space in the Globe-Democrat is the open sesame to this unusual market.

STRIKE BOUND BRITISH DOCKS TO OPEN TODAY

BY PAUL WILLIAMS.

(Chicago Tribune Foreign News Service.)
LONDON, Feb. 25.—(Tribune.)—Delegates of the transport workers' union, who met today at the ministry of labor, voted to call off the dock workers' strike, and activities in the ports will be renewed tomorrow morning, although a general resumption of work is not expected before Wednesday.

Tom Shaw, minister of labor, tomorrow will appoint the chairman of a commission to consider immediately the question of guaranteeing a full week's work.

The stevedores and lighter men of the port of London, who are striking for an increase of 2½ shillings (roughly 50 cents) in their pay a day, are not included in today's settlement. They number but 15,000. They are in a position to continue the local tie-up and keep 40,000 dock workers idle through lack of work. Six thousand skilled workmen are still striking at Southampton, which port will also remain idle.

Prince Gets His Court Suit.
The last of the baggage of passengers from the Berengaria, which docked at Southampton on Saturday, arrived in London by trucks only tonight. The prime minister of Queenland was relieved to get in contact once more with his beloved set of rascals. An American concert troupe, appearing in Liverpool tonight, sang

with what music they could find there. Their own music was delayed among the baggage.

Prince Eric of Denmark with his Canadian bride, who was late Booth, motored to Southampton last night to retrieve the proper clothing for their reception by King George at Buckingham palace today.

Trundle Own Baggage.
The liner Camille, from Panama, cleared the port of Bristol tonight after being compelled to lay by in a rough sea for fifty-two hours because striking dock workers would not allow the lack gates at Avonmouth to be opened for a tender to take off forty-seven passengers, mails, and baggage.

Regarding the dismissal of 100 checkers as a reprisal for their participation in the railway strike of last month, 4,000 railwaymen at Hull struck in sympathy today.

The minister is against the proposal, and he is reported as quarrelling with his colleagues at yesterday's cabinet meeting over the impossibility of such interest.

MOBS DEMAND TOKIO CABINET PAY INSURANCE

(Chicago Tribune Foreign News Service.)
TOKIO, Feb. 25.—Mobs of persons who lost property in the Tokyo earthquake and fire of September, 1923, are demanding that the government force foreign companies to pay one-tenth of their losses. A crowd spent the night in the grounds of the minister of finance, demanding that he pledge the treasury for an advance of an 80,000,000 yen (\$40,000,000) loan to the insurance companies at 3½ per cent interest. The minister is against the proposal, and he is reported as quarrelling with his colleagues at yesterday's cabinet meeting over the impossibility of such interest.

GRIPPE WEAKNESS

It is a fact that those who are careful to keep well-nourished and the resistance normal, are best able to avoid or prevent the prostrating effects of grippe or similar infection.

SCOTT'S EMULSION

a name familiar on the lips of tens of thousands, is used today and every day to help nourish and strengthen. If Scott's Emulsion is now helping tens of thousands realize freedom from grippe, coughs, colds—why not let it do as much for you?

CARSON PIRIE SCOTT & Co

Tub Frocks of Linen Unusual Values at \$8.50 and \$10.50

Daily new frocks arrive. Every fabric favored for tub frocks for spring is represented. Styles present a variety that makes it possible to choose for nearly every need and preference.

Linen Frocks for Women at \$8.50

Buttons trim the vestee, belt and short sleeves of the frock sketched at the left. And pipings of white outline cuffs, pockets, and are on the front of the blouse. In the new spring colors. At \$8.50.

Women's and Misses' Linen Frocks, Sketched at the Right, \$10.50

Coat frocks with clusters of fine pin tucks have long white surplice collars tipped with hand-work, and white cuffs edged in color.

In Orchid, Tangerine, Copenhagen Blue, Green, White. Specially Priced, \$10.50.

Fourth Floor, East.

In the Gray Shop New Frocks of Satin Crepe In the Extra and Larger Sizes At \$65

It is such frocks as these that tell how important is this specialized service to those who wear the larger sizes.

An effect of slenderness is given by skillful draping and long, loose panels. The panel in the back may be worn over or under the belt.

Reverse Bands Of the Material

Are on the blouse and the long apron front. There is an effective black ornament set with rhinestones at the side.

This frock may be chosen in cocoa color, navy blue and black.

Other New Silk Frocks for Spring In the Gray Shop Are \$37.50 to \$95.

Ninth Floor, Use North Elevators.

In the Section of Moderately Priced Frocks Smart Silk Frocks for Spring At \$32.50

One of the most attractive of the frocks specially featured in this section. Just "dress-up" enough to be adaptable to afternoon or informal evening occasions. Of lustrous satin.

In Sizes for Women and Misses Making Selection Very Satisfactory

Cleverly applied upon the sleeves and at the side of the skirt are motifs of silvery embroidery. There is a low wide girde that ends in graceful draping at the side. In black and cocoa color. \$32.50.

Other New Silk Frocks at \$25 to \$45

Fashion features noted new this spring, the favored materials, styles represented in wide variety. Prices in these groups range from \$25 to \$45.

Fourth Floor, East.

Trim Straight Sports Frocks Show the Smartness of Hair-line Fabrics

The lines of this frock are emphasized and given interest by the clever use of the striped material so much in fashion favor now.

Low Priced At \$25

With hand-stitchery in silk threads. And with buttons and a perforated leather belt in color.

There are soft collars and cuffs of white crepe de Chine, finished at the edges with narrow pleated frills. Sketched.

Tan, Gray, Navy Blue with White Stripes.

Fourth Floor, North.

Mandel Brothers

Emphasizing the vogue of "Maggie"
—black and white combination—
as the foundation for Milady's spring wardrobe
The chattering bird dictates the mode as Fashion adopts its plumage

When Madame pours tea for her guests, she may do so with graciousness and aplomb, if her frock of rich black satin is simply and artistically white-headed. It is not only appropriate and becoming, but quite a la mode, as well. Pictured, \$85.

For wear on street or in motor, the comfort of a smartly enveloping coat is immeasurable. The coat pictured is of imported plaid, in black and white, and finds renewed individuality in novel adornment of soft leather, 49.50.

Distingue and trim is the Jenny tailor, cleverly contrived of black rep, bound in white braid, and proudly uncovering a blouse of white crepe de chine, with heavily brocaded vest, cuffs and collar. A truly captivating costume. \$135. Fourth floor.

That you may "slip-on" distinction with a garment!

A blouse of white crepe de chine, with adorable vest of wee tucks, a cunning round collar and black moire tie, further emphasizes its modernity with a black embroidered Mah Jongg tab. 12.75.

A little bird told us

—perhaps it was the Maggie—the newest Paris hats are black and white! The chic tricorne of black satin and white straw, thrust through with a novel pin of black enamel and rhinestones, proclaims itself quite comme il faut for tailored wear. \$20

Many are the uses of a felt hat! And if the felt happens to be black, and the crown four-sectioned, with interweaving of white straw braid, an intriguing finishing touch is found in the three saucy flat bows of braid. \$10

Others range from 7.50 to 22.50

The correct hose

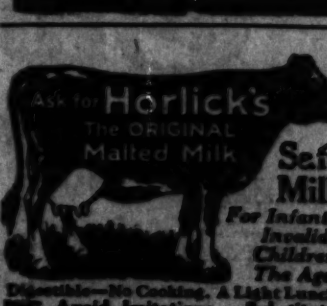

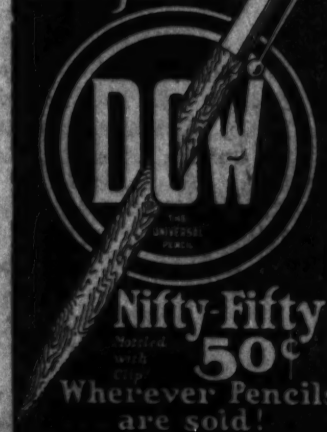

to peep from under a trim tailored skirt or smart sports coat are of silk or of hile in black and white checks. Fifth floor.

When you step with assurance

you will choose a pair of voguish Colonial pumps, on which large square black buckles glisteningly spell completeness. Think of being comfy, practical and stylish, all at once!

Southern Women to Give Tea for Head of Educational Alliance

One of the most interesting affairs of the week will be the tea to be given by the Chicago branch of the Southern Women's Educational Alliance Thursday afternoon at 4:15 o'clock at the Casino for Dr. O. Latham Hatcher, president of the alliance. Dr. Hatcher will speak, and also Miss Helen Frazer of England, whose subject will be "American and British Women; Comparisons and Contrasts." Serving on the committee in charge are Mrs. C. E. Barnes, Mrs. John Borden, Mrs. J. D. Bradley, Mrs. William M. Burton, Mrs. A. F. Callahan, Mrs. George A. Carpenter, Jacob M. Dickson, Mrs. Calvin Pentecost, Mrs. Charles F. Pitts, Mrs. Joseph B. Long, Mrs. Albert J. O'Connell, Mrs. Foster Palmer, Mrs. George S. Payson, Mrs. William Allen Pusey, Mrs. Charles N. Smith, Mrs. Russell Tyson, Mrs. Russell S. Whitely, Mrs. Wiloughby G. Walling, and Mrs. J. Gordon Wilson.

Mrs. James Ward Thorne of 1200 Lake Shore drive returned on Sunday from a ten-day stay in New York. Mrs. Thorne has given up her Florida trip but expect to go somewhere nearer home in about two weeks when Mr. Thorne is able to travel.

Dr. Potter Palmer of 1255 Lake Shore drive will arrive at home this morning from a short visit with her parents, Mr. and Mrs. H. H. Kohlman, in New York.

Mrs. George Packard of 435 Barry avenue departed yesterday for a week's visit with her daughter, Mrs. Fanning Holt, in Detroit. Mrs. Packard, who returned recently from a visit with her sister, Mrs. J. H. Holt.

Mr. and Mrs. Charles H. Schweppe of Lake Forest, and Mr. and Mrs. Kersey Coates Reed of 886 Lake Shore drive have gone to Plymouth, Wis., for a fortnight's visit with Mr. and Mrs. J. T. Pirle of Lake Forest.

Mr. and Mrs. Joseph T. Ryerson of 1045 Astor street have taken a house at Narragansett Pier and expect to spend the summer there with Mr. and Mrs. Julius Rosenwald of 601 Ellis avenue departed last night for a trip through the south.

Mrs. Augusta A. Carpenter of 1130 Lake Shore drive is visiting relatives in California.

Franklin MacVeagh will depart the latter part of the week for Washington, D. C., where he will stay a few days before going to his Dublin, N. H., place.

Miss Bernice Brown, dean of Radcliffe college, is the guest of Mrs. Everts Wrenn of 1318 Ritchie court, during the meeting of the National Association of Deans of Women.

Mr. and Mrs. Addison Stillwell have returned from New York and are again in their apartment at the Savoy.

Mr. and Mrs. Frank Cist of 44 East Elm street, with their two sons have gone south to visit Mr. Cist's parents on Sanibel Island, Fla.

The shop of the National Society for Shut-In at 106 East Walton place, which has just been newly decorated, is to have a sale today with Mrs. Paul Walker, Mrs. George W. Dixon, Mrs. William Volney Jr., Mrs. William W. Dixon, and Mrs. Marquette A. Healy in charge.

The Junior Republican Voters' league will meet at Miss Helen Lehman's residence, 1249 North State street, this afternoon at 2:30 o'clock. Dr. Rodney E. Mott of the University of Chicago will talk on "Present Day Political Problems, Including the Teapot Dome Scandal and the Mellon Tax Plan."

The Junior Friends of Art will meet this afternoon at 2:30 o'clock at the residence of Mrs. Charles S. Peterson, 188 Lake Shore drive.

Success in \$5,000,000 Masonic Drive Assured

At a luncheon of drive workers seeking \$5,000,000 for a new Masonic temple yesterday at the Morrison hotel it was announced that success of the drive was assured and that work on the new building would be started May 1.

"We intend to continue in our work until the full amount is subscribed," Campaign Director Otis Gales said.

The twenty-nine story building will occupy the present site of the Colonial theater on West Randolph street. More than 4,000 Masons and members of the Order of Eastern Star have participated in the drive.

Knickerbockers Forbidden Women in Canada Parish

St. Boniface, Man., Feb. 25.—Knickerbockers for winter sports were forbidden to the women and girls of the St. Boniface archdiocese in a sermon by Archbishop Beliveau yesterday. The archbishop characterized knickerbockers as "dangerous and immoral." A similar warning was issued during the carnival at the St. Boniface rink last season.

The National Park seminary alumnae will hold their monthly card party at the residence of Mrs. G. S. Burdick of 6900 Jeffery avenue at 5 o'clock this afternoon.

PATTERNS BY CLOTILDE

WOMAN'S AND MISSES' DRESS

Two materials would combine well in this smart one piece dress. The dress closes in the front in surplice effect, and at the bottom it measures about 1 1/2 yards.

The pattern, 1936, comes in sizes 16 years and 36 to 44 inches bust measure. Size 36 requires 2 1/2 yards of 40 inch material with 2 yards of 40 inch contrasting and 4 1/2 yards of binding.

Order Blank for Clotilde Patterns, CLOTHES, DAILY TRIBUNE, CHICAGO.

Indorsed and \$1.00. Please send me the Clotilde patterns listed below:

Pattern number. Size. Price.

Name. Street.

City. State.

How to Order Clotilde Patterns.

Write your name and address plainly on dotted lines, giving number and size of such patterns as you want. Inclose 10 cents in stamps or coin (coin preferred), wrap it carefully for each number, and address your order to Clotilde, Chicago Daily Tribune.

Note—Clotilde patterns are made in New York exclusively for THE CHICAGO DAILY TRIBUNE. They are perfect in fit, up to date in style, and the easiest of all patterns to use.

Tailored Blouse Boycott Lifted by Roy Cut Suit

NEW YORK.—[Special Correspondence.]—For some seasons back the poor tailored blouse looked as homeless as a man in housecleaning time. What with all these three piece costumes it really had no place to go. Only a few loyal souls gave it shelter.

When, however, the two piece boy suit stepped on the scene as the heroine—rather, the hero—of the hour, the tailored blouse experienced a change of sentiment. For this costume demands as its accompaniment the type of blouse so long rejected by us. And in response to its call there have risen innumerable types of the tailored shirtwaist.

Many of these are done in white crepe and some in white satin. Baste and voile are both chosen. More striking than these are the men's shirts and broadcloth which the designers have recruited. It is the last named fabric which achieves the top model in today's illustration, and the tone is the fashionable white. Plaids cover almost the entire front, and a stock of self material, in the solution of the neck line problem. I may add that these blouses of white broadcloth are one of the popular novelties of the season.

Of the blouse with the plaid shirt bosom and of that other variety with the plaid jabot—who can keep track? For every day brings out some fresh version of these. Not less plagiarized is the type with the monogram.

Above we show a suit-dress model of yellow crepe de chine which adds to its fine plaided bodice of the Irish crochet now largely in vogue.

WASHINGTON SOCIETY

Washington, D. C., Feb. 25.—[Special.]—The President and Mrs. Coolidge will have as their guests for a few days at the White House, Mrs. Foster Stearns, who has been with the President and Mrs. Coolidge for some time. Mr. and Mrs. Stearns will go to Florida later in the week.

Mrs. Sutherland, wife of Justice George Sutherland, was the guest at luncheon today of Mrs. Wilton J. Lambert.

Mrs. Tamados, wife of the charge d'affaires of Greece, was the guest today at the regular Monday luncheon of the Women's National Press club.

Mrs. William E. Borah, wife of Senator Borah, is in Atlantic City at the Ritz-Carlton.

The military attaché of the British embassy and Mrs. Charlton returned yesterday from a visit to Panama.

The 22nd field artillery will hold a five year reunion dinner in the rose room of the Morrison hotel Saturday evening. Tickets will be \$2.25, and remittance should be made to battery commanders or to S. B. Clark, care of Chicago Morris Plan bank, 21 North La Salle street.

Ravenswood post will give a dance this evening in Chase Park auditorium, LaSalle and Ashland avenues.

The Illinois Soldiers, Sailors, Marines' Relief and Aid society will give a five year party Thursday at 8 p. m. at 17 Quincy street for the benefit of the veterans in the hospitals. The public is invited.

Mrs. Carpenter to Stage Fashion Show

Mrs. John Alden Carpenter, president of the Arts Club of Chicago, will stage the Fashion Show Extraordinary, to be held on March 13 by the Fashion Art League of America as the chief feature of the league's spring convention, which continues through the entire week of March 10 at the Auditorium and Congress hotels.

Mrs. Carpenter, who has staged many of the spectacular social and charitable events of the winter, is keeping her plans for the fashion show a secret. She has long been a patroness of the league, the purpose of which is to develop American design and American made clothes for American women.

More than 1,000 delegates from all parts of the country will attend the convention.

Helping a woman on with her coat consists not only in holding the garment in the air but seeing that it is right side up and that she finds the armholes.

PALE SKIN, DULL EYES, THIN FLESH? THESE are the signs of impure blood, bad digestion and an enfeebled and run down state of the whole system.

Correct these bad conditions with Gude's Pepto-Mangan. It contains a simple supply of the iron your blood needs, and just the tonic, invigorating, strengthening elements which build up bodily vigor, improve the digestion and increase the energy and endurance.

Your druggist has Gude's, in both liquid and tablet form, for free Pack and begin to take it regularly.

Free Tablets To see for yourself the Gude's Pepto-Mangan health-building value of G. J. Benteenbach Co., 31 Warren St., N. Y.

PROM HOSTESS

BY ANTOINETTE DONNELLY.

DISCOURAGED: THE FIRST rule for maintaining that lovely baby texture and clarity of the skin is to wash the face correctly. Careless and hasty washing of the face starts the blackhead trouble, then it is but a step to pimples and other complications which are disfiguring. Don't use hot water on the face; use warm water, and a good soap. Rinse in warm water, then in cold every time you wash your face. Cold water is tonic and astringent in virtue. If you let it go at a hot water rinse, you leave the pores open, inviting the dust and soot to settle therein and start blackheads. I have a booklet on care of the complexion you would find helpful. Please send S. & S.

BOOKWORM: READING IN BED is all right, so one of the best eye men in the country tells me, providing the light is right. The light should illuminate over the left shoulder and be on a level with the top of the head. Ceiling lights, side lights, and lamps removed some distance are what cause the damage.

WHAT'S WRONG HERE?

St. Mary's Alumnae to Give Dinner Thursday

Miss Rose Otten will be one of the principal entertainers at a dinner which will be given Thursday night by St. Mary's alumnae in the gold room of the Congress hotel. Miss E. Sherman, president of the alumnae, who is in charge of the affair, says an interesting musical program has been arranged and all members are expected to attend. The officers of the alumnae plan to hold the dinner annually.

SMILEY-WILEYS

A Smiley-Wiley is a little of two lines. Any little rhyme that will make you laugh is a Smiley-Wiley. For instance: "May your path be filled with roses and your life be turned to song. You can probably write a better one than this. It is up to you to make it so. The Smiley-Wiley Editor, The Tribune, Chicago. The Tribune will pay \$10 for the best one submitted. \$5 for the next best, \$2 for the third, \$1 for the fourth, and \$1 for each additional one."

First Prize—\$10.

On land and sea (this is no myth). Wherever I go, I meet a Smith. Erin Newton, 5351 Adams street, Chicago.

Second Prize—\$5.

As he sampled the lovely white froth of the bowl, his expression of agony grew. He heaved all too late that it wasn't whipped cream—he was eating his mother's shampoo. Eleanor Mathews, 124 Racine street, Delavan, Wis.

Third Prize—\$3.

I boldly said she was my pearl; she laughed in requital glee. And then remarked, this slangy girl, "Say, are you stringing me?" Mrs. Susan Taylor, 303 South McDowell street, Lima, O.

Fourth Prize—\$1.

Daring Dave was quite a speeder; left his dust all over town. One fine day his front tire busted. "Dust to dust," said Francher Winsford Ray, 41 West Chicago avenue, Chicago.

Fifth Prize—\$1.

He came in from the golf course, and gave us quite a shock. "I found them wet, all right; you should have seen them run!" F. P. Robinson, 518 College street, Beloit, Wis.

Bright Sayings of the Children

The Tribune will pay \$1 for each child's saying printed. The story told must concern their parents or some other person or place. It is not possible to acknowledge or return unsolicited contributions. Please write to our child editor, Mrs. William C. Higgins, 100 N. Dearborn street, Chicago.

As a rule Dorothy receives a great deal of attention when she visits us, but one day so many callers were

Jane Ann's mother is a most enterprising young woman, a willing worker in her home community, and always in demand. The other day I went to call on her.

"Is your mamma at home this afternoon?" I inquired of Jane Ann when she answered my ring.

FIGHT ON BOLL WEEVIL ADDS TO U. S. GOLD STOCK

BY SCRUTATOR.

Those who are worried about the United States having too much gold may have to worry some more. There is a prospect that our domestic production of gold will be considerably increased.

Not that investors are rushing to open gold mines in this era of low buying power for the standard metal. But gold begins to figure as a by-product of cotton.

This way. To get cotton it is becoming increasingly imperative to check the boll weevil. To kill the boll weevil requires arsenic. Gold ore is frequently found associated with arsenic compounds, and in their reduction gold is a by-product.

Lauretta Borgia would be surprised if she could come back to life to find one of her little "pets" now essential to the production of women's wear. Of course, there was no cotton in her life, but she has a lot to say about it. She is largely paid now, but she is also essential for cheap dye and to eradicate the cattle tick.

The United States produced 18,840 tons of arsenic last year and imported 5,510 tons. Domestic production for 1924 is estimated at 15,000 tons and imports at 10,000. The extensive use of calcium arsenate for dusting cotton goes back to 1919, although the use of lead arsenate to get the tobacco worm daisies further back.

Only 4.4 per cent of the cotton acreage was dusted last year with calcium

arsenate, 21,000,000 pounds of the compound being employed. Requirements this year are placed at \$6,000,000 pounds, which will supply enough for 8 or 9 per cent of the cotton acreage.

Because of the high price of calcium arsenate it is estimated that only about 20 per cent of the cotton acreage can be economically subjected to this treatment, unless cheaper supplies of raw material and cheaper processes of manufacture can be obtained.

To protect 20 per cent of the crop would require 54,000 tons of white arsenic, or more than the entire world production.

With boll weevil ravages estimated at \$200,000,000 per year, it can be readily seen that the inducements for the development of arsenic mines are considerable.

Until the recent demand for arsenic, its presence in ores was regarded as a severe handicap to the mining industry, and the smelters penalized such products.

As has often happened before, the stone that the builders rejected has now become the head of the corner in a number of enterprises.

Much arsenic is being recovered from old smelter dumps at Eureka, Nev., once a great lead center.

Development of arsenic production in this country is being watched with considerable interest by military men, as the deadliest poison gases so far developed were based on arsenic compounds.

As is fairly well known, an arsenic compound developed in the same German chemical industry that turned with such ready facility from dyeing to slaughter, when the demand for color centered on blood red, has also proved the greatest defense to the human race against a bacterial enemy, that has filled the world with disease and insanity.

The same metal is now man's best bet in the war against insect life, which has already become serious enough to cause a doubt here and there whether the human race has yet proved that it is en-

DRY GOODS AND GARMENT NEWS

(Copyright 1924, Fairchild News Service.)
NEW YORK.—There was heavy trading in the dry goods market, sales advanced on Saturday's prices, generally, though some numbers stiffened somewhat. There was particularly good business in the 64x90, 5.25 yards to the pound, and the 64x72, 4.75 yards to the pound. Quotations on popular retail cloth constructions were as follows: 64x90, 5.25 yards to the pound 94, cents; 64x72, 4.75 yards to the pound, 11, cents; 72x72, 4.25 yards to the pound, 15, cents; 62x70, 4.00 yards to the pound, 14, cents.

NEW YORK.—The continued decline in cotton goods prices is reflected in a further reduction in the Fairchild cotton goods index for the week ended Feb. 22. It now stands at 17.081, compared with 17.292 the previous week. It has been moving steadily lower since the week ended Jan. 5, when the high of 18.157 was established. The average price of cotton shows a sharp decline, being 52.32 for last week. This makes a new low for the year. It compares with 52.31 for the preceding week. The average price of cotton is now nearly 7 cents a pound lower than during the week ended Dec. 1, 1923, when the record high of 57.90 was set.

It is to master this planet because of biological superiority.

Within two generations arsenic was a trifling chemical used in medicine, and sometimes by women who sought the pallor that mid-Victorian heroines featured.

Today it is fast becoming a principal arm in three great varieties of conflicts, man versus bug, man versus bacteria, and man versus himself.

RUBBER MARKET.
NEW YORK, Feb. 25.—RUBBER.—Smoked sheet rubber, spot, 25 1/2c.

COFFEE MARKETS.

NEW YORK, Feb. 25.—COFFEE.—Futures opened at an advance of 1/16¢ per pound on reports of strong Brazilian weather and coffee for near month shorts. March sold up to 14.50¢ and May to 14.40¢, new high ground for the movement. The market closed at an advance of 3/16¢ per pound. Sales advanced to about 30,000 bags; March, 14,50¢; May, 14.50¢; July, 14.00¢; September, 13.80¢; October, 12.70¢; December, 13.01¢. Spot prices: Rio 72, 15 1/2¢; Santos 48, 15 1/2¢; Santos 52, 15 1/2¢; Santos 56, 15 1/2¢; Santos 60, 15 1/2¢; Santos 64, 15 1/2¢; Santos 68, 15 1/2¢; Santos 72, 15 1/2¢; Santos 76, 15 1/2¢; Santos 80, 15 1/2¢; INSULL ADVISES INVESTMENT IN HOME SECURITIES

BY O. A. MATHER.

If investors will put their money into the securities of corporations operating in and serving their own communities, it will not only safeguard their savings but will practically eliminate the sale of fraudulent stocks and bonds. This prediction and advice were given to stockholders of the Public Service Company of Northern Illinois at their annual meeting yesterday by President [Name obscured].

"Customer ownership of the company's securities has proven a tremendous factor in saving large sums which otherwise might have been taken by get-rich-quick promoters," Mr. Insull said. "The people of communities served are becoming educated to invest wisely, and it is becoming increasingly difficult for crooked stock salesmen to operate."

Also Helps Community.

"The saving of money is not only a benefit to those who purchase the appliances but to the communities also, as the funds turned in are expended back in the communities themselves in the form of permanent plants and distribution systems which provide increased facilities to the communities and very largely increase property values."

The stockholders voted to increase the authorized capital stock by the addition of 100,000 shares of 7 per cent cumulative preferred stock, which will be issued as new capital is necessary. Stockholders of the Illinois Northern Utilities company voted to change the unissued 120,000 second preferred and \$3,750,000 preferred stocks to 40,000 shares of non-cumulative preferred stock entitled to 7 per cent cumulative dividends. There is now \$4,000,000 of 6 per cent preferred stock outstanding.

Three Consolidations Announced.

Three consolidations in the automobile and oil industries were made known yesterday. The Hayes Wheel company will acquire the Hayes Motor Truck, Albion Belt and Morrison Metal Stamping companies, all of Michigan, if the stockholders approve it, a voting on March 15. It is planned to issue \$1,500,000 of new stock in exchange for the acquired companies.

A merger of several Salt Creek, Wyo., oil companies having a total capitalization of \$10,000,000 is being negotiated under direction of the Midwest Refining company. The companies involved are Karine Oil, Glen Rock Oil, Royal and Wyoming, and the Wyoming syndicate. They are brought in from Western States, Wolverine Oil, and the Salt Creek syndicate.

Sale by the Pure Oil company of four gas companies in Ohio to the Columbia Gas and Electric company divests the former company of all its public utility subsidiaries. The Pure Oil company will receive about \$750,000 in cash and \$11,000,000 in one year notes.

Radio Recapitalization Proposed.
Recapitalization of the Radio Corporation of America, reducing the number of shares of preferred stock from 5,000,000 to 500,000 and the no par value common stock from 7,500,000 to 1,500,000, has been proposed by the directors. Stockholders will vote upon the plan in May.

Stockholders of Sears, Roebuck & Co. at their annual meeting in New York City yesterday were informed by Vice President Max Adler that "the directors have not officially discussed when or at what rate common dividends will be resumed."

FINANCIAL NOTES

Heavy selling of the copper shares. A further reflection of the passing of the Calumet and Hecla dividend was one of the features of the stock market yesterday. Announcement was the principal target of sellin pressure, due to the fear in some quarters that the regular dividend, to be acted on today, was in danger. The stock closed 10 points lower at 37 1/2, after selling slightly below that figure. Net losses of a point or more were recorded by Utah, Calumet and Ariz.

Baldwin, Studebaker, and American Car
registered net losses of a point or more
on relatively light trading. Steel shares of
showed fairly good resistance to selling
pressure, Bethlehem closing unchanged and
United States Steel common, Republic
credible, and Gulf States holding their losses
to a point or less. Sioux-Shedfield closed frac
tionally higher, buying of that stock being
based on speculative expectation that it
would be placed on a \$6 annual dividend
basis at today's meeting of the board of di
rectors.

Renewal of selling pressure against the Central Leather issues, which dropped more than a point each, was based on publication of the 1923 earnings' report showing a net loss, after charges and taxes, of \$7,272,243 as compared with a surplus of \$1,528,209 in 1922. Sympathetic weakness took place in American Hide and Leather common and preferred, the latter dropping 2 points.

Weakness of Virginia-Carolina Chemicals preferred was followed by unconfirmed reports of a reorganization of some kind, the stock dropping to 15¢ and then rallying to 20¢ off 2¢. Other chemical issues, with the exception of Davison, which moved up, also were heavy. Kelly-Springfield dropped 1 point in response to a poor 1923 earnings

Trading in the railroad shares was rather sluggish. Heavy profit taking in Southern Railway sent that stock down 1½ points to 44½. Shippings improved on the settlement of the British dock workers' strike.

most of the active issues made good recoveries from their low prices which ranged 2 to 2 1/2 points below Saturday's final figures.

On the curb market, selling of high priced oil issues imparted an irregular trend to the general list. Net losses of \$ to 7 points were recorded by such issues as Swan and Finch, Prairie Oil and Gas, Magnolia Petroleum, Solar Refining, and Chaseough Manufacturing. Vacuum Oil was an outstanding strong spot, closing nearly 3 points higher and 66%. Persistent accumulation of Kroger's

and on the reported acquisition of several new stores, sent that stock to a new high of \$2, a net gain of 14.

Resumption of dividends on the preferred stock of the Utah Gas and Coke company has been proposed through an offer to stockholders of 7 per cent participating preferred shares at par in lieu of five years of unpaid dividends. Stockholders will vote on the proposal on March 17.

U. S. TREASURY STATEMENT

WASHINGTON, D. C. Feb. 25.—The following is a statement of the condition of the United States treasury on Feb. 25:	
Amount to date this year.....	\$5,315,264,172

54,000 People Read This Book Last Year

A prominent Chicago business man, who had just read this book, handed it to one of his friends, saying: "Here is a book that shows the safest way to reach financial independence. I wish it had been in print when I was beginning my career."

Thrifty wage earners who set something aside from the weekly pay envelope or the salary check; business men and business women, building a capital reserve; widows seeking safe investment and the largest income from life insurance funds — people like these by the hundreds of thousands have profited by reading this book. One man said, "To pay \$10 for the sake of the information it contains would itself be a profitable investment, for it gives you a practical education in common-sense investment." But you pay nothing — it is sent for the asking.

No matter how much or how little you are earning—if you have learned the wisdom of saving—you should at least find out what the STRAUS PLAN has done for others and what it can do for

to you. To those who wish to obtain the highest and most continuous income from their savings, and to those who wish to create a fund for any worthy purpose, with the feeling that every dollar is safe, this book offers a proved plan founded on nearly half a century of experience. Send a letter or postcard today, and a copy will go to you by return mail.

Asking for this book places you under no obligation whatever. We ask only that you read it carefully. We want to place it in the hands of everyone interested in safe, profitable investment of spare funds.

Bond Opportunities

will soon offer five issues of bonds paying 6 1/2% and of exceptional character. The denominations will be \$100, \$50 and \$1000. As these bonds will be in limited amounts, they will not be advertised and will quickly be sold. As your request for the book is received, your name will go on the list to which particulars about these bond issues will come as soon as they are ready. This will give you a clear idea of the exceptional opportunities offered by this company.

YEARS WITHOUT LOSS TO ANY INVESTOR

CORN TAKES LEAD
IN GRAIN TRADE,
GAINING 3-8-5-8c

BY CHARLES MICHAELS.

Corn came to the fore as the leader in the grain markets, and with short covering and buying by local bulls, prices moved up readily, with May leading and closing 3/8c higher. Wheat was dull and easier under local pressure and lost 1/4c, while oats were 1/4c lower and rye off 1/4c.

Small Decrease in Vitals.
A decrease of 125,000 bu in the visible supply was somewhat less than expected, and brought the total down to 44,444,000 bu, against 47,000,000 bu last year. Exports of corn in the last few days exceeded 1,200,000 bu, partly unreported business of Friday and Saturday. The market acted somewhat overbought, and the reaction was not surprising. May finished at \$1.10, July at \$1.10, and September at \$1.10.

While some of the local professionals are bullish on corn there was no pressure of consequence on the market, even after values had advanced around 10c from the early low. May showed the most strength, with the surplus in the pit absorbed early by a local trader who was covering shorts, and later some of the local bulls helped along the upturn. The reaction from the top was due mainly to pit operators. May finished at 89 1/2c, July at 89 1/2c, and September at 89 1/2c.

Oats held within a range of 1/4c, and closed about the bottom. Traders are disposed to wait for further developments. Uncertainty as to what Congress will do is restricting trading to some extent.

Interest in rye shows little or no increase despite reports of export business. Sales of 50,000 bu were made to go to stores for delivery on May contracts.

More Trade in Bellies.
Trade in bellies broadened, with a cash house a good buyer on the July. Packers were the best sellers. Closing trades were at gains of 7/16c. Lard was up 7/16c and the 12 1/2c. Liverpool lard was unchanged to 1/4c lower. Prices follow:

\$83,558, as compared with \$85,354,426 for January, 1923. During last month the exports of cotton manufactures were valued at \$9,84,789, while the value of cotton manufactures in January, 1923 was \$10,499,999.

Daugherty Tells of Deals in Sinclair Oil Stock—New Bishop of Springfield, Ill., Is Consecrated Here

PRINCIPAL TARGETS IN SENATE OIL INQUIRY. Attorney General Daugherty (left) and former Secretary of Interior Fall in deep conversation following 1922 cabinet meeting. (Story on page one.) (Copyright: Haris & Rines.)

MOTHER'S DREAMS FOR SON ARE REALIZED. Rt. Rev. James A. Griffin, new bishop of Springfield, Ill., and his mother, Mrs. Catherine Griffin of Chicago. (Story on page twenty-one.) (Tribune Photo.)

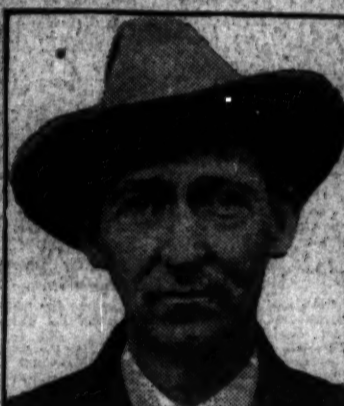

NEW BISHOP OF SPRINGFIELD, ILL., IS CONSECRATED HERE BY ARCHBISHOP MUNDELEIN. Scene in the Cathedral of the Holy Name during the ceremonies. The Rt. Rev. James A. Griffin, native of Chicago and formerly Joliet pastor, is shown prostrate before the altar during the solemn pontifical mass. (Story on page twenty-one.) (Tribune Photo.)

TO ENTER CABINET? Joseph M. Dixon, former Montana senator, may get Denby's job. (Story on page five.) (American Press Association Photo.)

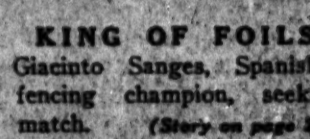

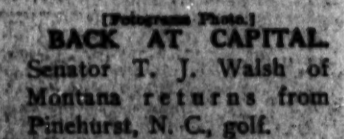

TEACHER IS DEAD. Miss Meta Wellers, for fifty-six years in public schools. (Story on page five.) (Globe Art Gallery Photo.)

RULES WILLIAMSON. John Schafer, new chief deputy sheriff of Illinois county. (Photo and Atlantic Photo.)

GIRL ON TRIAL FOR MURDER CHARGES THAT REAL SLAYER TRIED TO KILL HER TO HIDE CRIME. Katherine Walters Baluk-Mahn as she appeared yesterday on the stand in Judge Steffen's courtroom when she testified in her own behalf. She accused Otto Malm of killing Edward Lehman and then attempting to end her life. (Story on page five.) (Tribune Photo.)

BACK AT CAPITAL. Senator T. J. Walsh of Montana returns from Pinchurat, N. C., golf. (Story on page five.) (Telegraph Photo.)

KING OF FOILS. Giacinto Sanges, Spanish fencing champion, seeks match. (Story on page five.) (Photo and Atlantic Photo.)

MEXICAN REBELS BURNING MIXED TRAIN WHICH THEY CAPTURED AFTER FIGHTING NEAR DURANGO. The picture shows the result of a raid made under command of Hipolito Villa and Juan Galindo. After derailing the train the rebels opened fire on it from ambush and many were killed before it was finally burned. (Photo and Atlantic Photo.)

MOTHER OF LONDON MERCHANT PRINCE DEAD. Mrs. Lois Selfridge, who was taken ill in Washington, expires at home of son, Harry Gordon Selfridge, in London. (Story on page ten.) (With World Photo.)

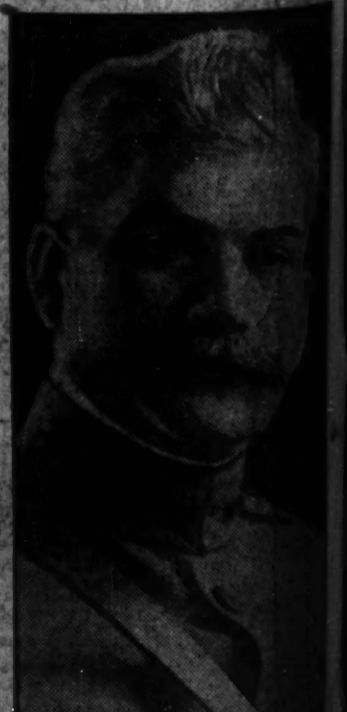

COUNTRY'S EDUCATORS MEET IN CITY. Left to right, seated: Amanda Lee Beaumont, W. Va., and Edith Barnard, Maryville, Mo. Standing: Harriet Dalton, Hibburg, Minn.; Josephine T. Allia, Chicago. (Story on page four.) (Tribune Photo.)

ONE OF THE EXHIBITS AT NATIONAL EDUCATION ASSOCIATION CONVENTION. Mrs. E. Wilson showing delegates to the convention two globes, one thirty inches in diameter and the other a foot in diameter, at the Congress hotel. (Story on page four.) (Tribune Photo.)

WIDOW OF FORMER ROUMANIAN PREMIER IN CITY. Mme. Marie Jonescu, author and authority on Byzantine art, with book autographed by Queen Marie of Roumania. (Tribune Photo.)

TO INVESTIGATE. Maj. J. H. Stansfield reports on military prison cases. (Story on page ten.) (Photo and Atlantic Photo.)
